Mr. John D. Brewer moved: That the Town hereby instructs the Selectmen to petition the General Court to authorize the Town to borrow fifty thousand (50,000.00) dollars to be expended for alteration of the old High School and for the installation of heating equipment and for the equipping of said old High School, and the addition, for

the purpose of establishing and maintaining a trade school therein, provided the loan so authorized is duly voted by the Town at some subsequent town meeting, and that the Moderator appoint a committee of seven to investigate the desirability of establishing a trade school in Plymouth and report to the Town at the next annual Town Meeting.

On motion of William H. Barrett, Voted: That the vote be taken by ballot.

672 voting in the affirmative, and 895 in the negative, the motion was lost.

Article Twenty-five:

To see if the Town will appropriate the sum of five hundred (500) dollars for portable seats on Cole's Hill.

On motion of John D. Brewer, Voted: That the Town take no action under Article twenty-five.

Article Twenty-six:

Mr. John D. Brewer moved: That the Town make no appropriation for the purchase of a new truck, but that a committee of ten be appointed by the Moderator to report to the Town on the advisability of combining the Forest Warden's Department with the regular Fire Department.

Mr. James S. A. Valler moved to substitute: That the Town appropriate the sum of Three Thousand Dollars to purchase a new forest fire truck and the equipment for same, but the motion was lost.

Mr. Brewer's motion was then put before the meeting and by show of hands, 487 voted in the affirmative and 285 in the negative, and the motion was carried.

Article Twenty-seven:

Mr. John D. Brewer moved: That the Town appropri-

ate the sum of \$14,500.00 for the purchase of a ladder truck.

Mr. Barrett moved that the vote be taken by ballot.

Mr. Philip Jackson moved a substitute motion: That a committee to consist of the Honorable Board of Selectmen, the Fire Commissioner, and nine other citizens of the Town of Plymouth to be appointed by the Moderator, be hereby authorized and requested to make a study of the needs of the Town in new apparatus for the Fire Department and report their findings and suggestions to the Town at the next Annual Town Meeting, and the motion was carried.

Mr. Brewer's motion, as amended by Mr. Jackson, was then put before the meeting and carried.

Article Twenty-eight:

On motion of John D. Brewer, it was unanimously voted: That the Board of Selectmen is hereby authorized to lay out and construct, as a W. P. A. Project, an intercepting sewer from the Kingston-Plymouth town line at Seaside south to Lumber Lane, so-called, and to acquire by purchase, gift or eminent domain the lands and easements necessary therefor, and that the sum of \$100.00 be appropriated for damages and expense of acquiring titles.

Article Twenty-nine:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$500.00 for the purpose of maintaining, during the ensuing year, the mosquito control works as estimated and certified to by the State Reclamation Board.

Article Thirty:

To see if the Town will vote to purchase for ranges for

small arms practice, drill or parade grounds, two adjoining parcels of land containing fifty (50) acres more or less, situated in Manomet near the Beaver Dam Road, now owned by John H. Murray and under lease to the Town for said purposes; and appropriate, for the purchase and improvement of said land, the sum of eighteen hundred and thirty-eight (1,838) dollars, now in the Town Treasury, received by the Town from sale of the Brooks property at Manomet Point in 1935.

On motion of John D. Brewer, Voted: That the Town take no action under Article Thirty.

Article Thirty-one:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$40,000.00 from money in the Treasury not otherwise appropriated for the purpose of providing co-operation with the Federal Government in unemployment relief and other projects, of direct or indirect benefit to the Town or its inhabitants. Said appropriation to be subject to transfers only on orders of the Board of Selectmen for the several projects and for necessary administration.

Article Thirty-two:

Mr. John D. Brewer moved: That the Town hereby instructs the Board of Selectmen to appoint a committee of fifteen (15) to further study the sewage disposal question and report their findings at the next annual town meeting; and that the sum of \$250.00 be appropriated for expenses of said committee.

Mr. Philip Jackson moved to substitute: That the Town hereby instructs the Honorable Board of Selectmen to appoint a committee of fifteen to further study the sewage disposal question excepting that part that applies to filter beds in the North Part of the Town and also that part that proposes to dispose of the sewage through pumping it into the waters off Rocky Point as proposed in the plans of Metcalf and Eddy, but the motion was lost.

Mr. Brewer's motion was then put before the meeting and carried.

Article Thirty-three:

Mr. John D. Brewer moved: That the Town appropriate the sum of \$4,500.00 for the purchase of a new grader for the Highway Department, but the motion was lost.

Article Thirty-four:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$150.00 to defray the expenses of "Old Home Day" on Thursday, November 30, 1939, Said appropriation to be expended under the supervision of the Board of Selectmen.

Article Thirty-five:

To see if the Town will accept the Act as provided in House Bill No. 1687 and reading as follows: An Act relative to the appropriations by the Town of Plymouth for certain municipal purposes.

Section 1. The town of Plymouth may for the purpose of maintaining an information bureau, replying to requests for information by mail or otherwise, defraying the cost of printing and publication of historical and informative material, participation in events of an historical or civic nature, entertainment of visiting dignitaries, accommodation for conventions of veterans or other patriotic and civic organizations, appropriate a sum not exceeding five thousand (5,000) dollars per year.

Section 2. This act shall take effect upon its passage and upon acceptance by vote of the town, at its annual or any special meeting held within two years of enactment.

On motion of John D. Brewer, Voted: That the Town take no action under Article thirty-five.

Article Thirty-six:

To see if the Town will appropriate a sum not exceed-

ing three thousand (3,000) dollars, to be expended under the direction of the Board of Selectmen for the purpose set forth in Article 35.

On motion of John D. Brewer, Voted: That the Town take no action under Article thirty-six.

Article Thirty-seven:

To see if the Town will appropriate a sum not exceeding eleven hundred (1,100) dollars to be expended under the direction of the Selectmen, under Section 6A, Chapter 40 of the General Laws, for the purpose of advertising its resources, advantages and attractions.

On motion of John D. Brewer, Voted: That the Town take no action under Article thirty-seven.

Article Thirty-eight:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$1,000.00 in accordance with the provisions of Clause 37, Section 5, Chapter 40 of the General Laws, for providing proper facilities for the holding of conventions and the reception of distinguished guests. Said appropriation to be expended under the direction of the Board of Selectmen.

Article Thirty-nine:

On motion of William H. Barrett, Voted: That the Town be recorded as requesting the resignation of Park Commissioner Arthur L. Morse.

Article forty:

To see if the Town will appropriate the sum of three hundred and fifty (350) dollars, including two hundred (200) received from insurance on tool house destroyed by fire, to be used for purchase of a road scraper for the Park Department.

On motion of John D. Brewer, Voted: That the Town take no action under Article forty.

Article Forty-one:

To see if the Town will accept and allow as a town way, Off Savery's Avenue, from Standish Avenue westerly approximately two hundred (200) feet on Savery's Avenue, thence northerly and easterly to land owned by Augusto Giovanetti, as laid out by the Selectmen and reported to the Town, and appropriate the sum of one hundred (100) dollars for land and property damages and expense of acquiring titles. (By petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article forty-one.

Article Forty-two:

Mr. John D. Brewer moved: That the Town accept and allow as a town way, Ocean View Road, westerly from Priscilla Road, approximately five hundred (500) feet, as laid out by the Selectmen and reported to the Town, and appropriate the sum of \$100.00 for land and property damages and expense of acquiring titles. 359 voting in the affirmative and 12 in the negative, the necessary two-thirds having voted in the affirmative, the motion was carried.

Article Forty-three:

On motion of John D. Brewer, Voted: That the Town vote to permit the material dredged from Plymouth Harbor to be deposited on and adjoining Long Beach in the event that either the United States of America or the Commonwealth of Massachusetts, or both of them in cooperation, undertake the dredging of a mooring basin in Plymouth Harbor, and direct the Board of Park Commissioners to make the necessary arrangements therefor in co-operation with the proper Federal and State engineers and officials.

Article Forty-four:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$5,000.00 from money in the

Treasury not otherwise appropriated, to be paid over to the State Treasurer for certain improvements in Plymouth Harbor, in accordance with a plan prepared by the State Department of Public Works and the United States Army Engineers.

Article Forty-five:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$500.00 for purchasing and erecting a chain link fence at Veterans Field.

Article Forty-six:

On motion of John D. Brewer, Voted: That the Town appropriate from money in the Treasury received from sales of cemetery lots and graves, the sum of \$500.00 to be used for hard-surfacing roads in Vine Hills Cemetery.

Article Forty-seven:

On motion of John D. Brewer, Voted: That the Town appropriate the sum of \$150.00, to be expended under the direction of the Plymouth Committee on Agawam and Halfway Pond Fisheries and in addition to a like sum to be appropriated by the Town of Wareham, in rebuilding the fish house on Agawam River.

Article Forty-eight:

Mr. John D. Brewer moved: That the Town take no action under Article forty-eight.

Miss Alice Barnes moved: That the Town name the junction of Main Street Extension, Sandwich and Water Streets, "Governor Carver Square," and that no appropriation be made, and the motion was carried.

Mr. Brewer's motion, as amended by Miss Barnes, was then put before the meeting and carried.

Article Forty-nine:

On motion of John D. Brewer, Voted: That the Town authorize the transfer of the sum of \$5,000.00 from the

Reserve from Overlayings of Taxes to the Reserve Account in the hands of the Advisory and Finance Committee.

Article Fifty:

To see if the Town will instruct the Board of Selectmen to take all necessary action in the name of the Town to cause to be reopened that section of the public way known as Nicks Rock Road lying in that part of the Town known as Braunecker's Farm and crossing property reputed to be owned by one Joseph Teixeira, and to appropriate the sum of one hundred and fifty (150) dollars to defray the expenses incurred. (By Petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article fifty.

Article Fifty-one:

To see if the Town will approve of a minimum wage for all regular town employees of five (5) dollars a day for an eight (8) hour day. This increase in wages not to affect anyone who receives a salary of more than one thousand three hundred and fifty (1,350) dollars a year.

(By Petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article fifty-one.

Article Fifty-two:

Mr. John D. Brewer moved: That the Town take no action under Article fifty-two.

Mr. William H. Barrett moved to amend by substituting: That the Town approve the purchase for each individual department head in the Town, who at the present time receives four hundred (400) dollars per year for the use of his or her private automobile, a new automobile, to be town property and used as such. Each new automobile not to exceed eight hundred (800) dollars in cost, but the motion was lost.

Mr. Brewer's motion was put before the meeting and carried.

Article Fifty-three:

To see if the Town will approve to request the present school committee to turn back to the Town the old high school building on Lincoln Street and to be disposed of as the present Board of Selectmen see fit. (By Petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article fifty-three.

Article Fifty four:

To see if the Town will approve of three (3) voting districts in the Town of Plymouth, as follows:

District 1: To include residents who reside north of what is known as the Cold Spring railroad bridge to the Plymouth-Kingston town boundary line, and these to vote at the Cordage Auditorium.

District 2: To include residents who reside south of said bridge to Hotel Pilgrim, said residents to vote at the Plymouth Memorial Building.

District 3: To include all other residents south of Hotel Pilgrim to the town line at Bourne and these to vote at the Bartlett Memorial Hall in Manomet. (By Petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article fifty-four.

Article Fifty-five:

To see if the Town will approve printing in the back pages of the Plymouth Town Report annually, an alphabetical list of individuals, companies, corporations, etc., and the amounts paid each by the town and for what purpose. (By Petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article fifty-five.

Article Fifty-six:

To see if the Town will approve the eliminating of all items listed in the Plymouth town report as "All Others" or "Miscellaneous." (By Petition)

On motion of John D. Brewer, Voted: That the Town take no action under Article fifty-six.

Article Fifty-seven:

To see if the Town will appropriate the sum of two hundred and fifty (250) dollars annually for medical examinations for every civil service employee of the Town of Plymouth for the purpose of determining his or her physical fitness. (By Petition)

On motion of John D. Brewer, Voted: That the Town make no appropriation under Article fifty-seven but that a special committee of three be appointed by the Moderator to consider the subject matter of this article and report at the next annual town meeting.

On motion of Herbert K. Bartlett, Voted: To adjourn.

REPORT OF ADVISORY AND FINANCE
COMMITTEE ON THE
ARTICLES IN THE TOWN WARRANT

March 25, 1939

Before considering the articles in the warrant, it may not be amiss to run back for ten years and note the trend of expenses from the days of the New Era through the depression and the New Deal.

Below, in Table I, we show the appropriations back to 1929; in the first column, the total, excluding major expenditures that were financed by bond issues; the next column, the relief costs; in the third column, the other expenses for the operation of the town; and in the last column, the dollars per thousand of valuation these "all other" expenses call for. It should be pointed out that these figures cover the town expenses only and do not take into consideration state or county assessments or any receipts. As there are substantial receipts from the state and federal governments, to help finance relief, the effect of these on our tax rate is not available from these figures. The right hand column is a measure of the effect on the tax rate of expenses other than welfare. The actual tax rate each year was quite different because of the other factors that entered into it.

Interesting points in this table are :

1. The tremendous increase in Relief costs.
2. The course of the other expenses of the town, starting and finishing at practically the same point, but showing considerable shrinkage from 1932 to 1937, caused largely by the pay reduction in effect at that time.
3. That the shrinkage in valuation from \$25,124,000 in 1929 to an estimated \$21,400,000 in 1939 causes an increase of \$4.90 per thousand of valuation for a budget of practically the same size.

TABLE I
Comparisons of Appropriations—1929 to 1939

Total Appropriations Excluding Those Financed by Bond Issue	Welfare W. P. A. Old Age Asst. Soldiers' Relief	Balance of Dollars	Appropriations Per Thousand of Valuation
1939 915,653 (recommended)	207,493	708,160	33.10
1938 937,469	233,590	703,879	32.80
1937 857,615	169,720	687,885	32.20
1936 811,612	173,020	638,692	28.65
1935 784,118	156,367	627,751	28.00
1934 848,130	218,253	629,877	27.70
1933 777,333	173,588	603,745	26.30
1932 769,235	115,000	654,235	27.30
1931 811,089	102,471	708,618	28.50
1930 876,656	62,143	814,513	32.20
1929 745,503	44,054	701,449	28.00

Table II is a comparison of the recommendations of the Advisory Committees for the March meetings of 1929 and 1939. The 1929 total is slightly less than the 1929 appropriation figures in Table I, because there was a small appropriation at a special town meeting in the summer that is not included in Table II.

A comparison of the two schedules shows increases in many departments, which the voters will recognize as caused by services they have voted for in the interim. They will note departments getting along with small increases or gratifying reductions, while doing very much more than ten years ago.

TABLE II

	Recommendations 1929	1939	1939 Budget More Less

Total Including Relief . . . 742,203 913,103 257,925 87,025

The town is faced this year with substantially higher costs for state and county government, large additional state tax for 1938 and considerably lower estimated receipts. All this results in an estimated tax of \$33.60, \$2.80 above last year.

TABLE III

	1938	Recommended 1939
Town Appropriations (To come out of tax levy)	882,957	853,154
State Tax	27,200	70,550
State Tax 1937 Deficit	2,745	
State Tax 1938 Deficit		30,600
County Tax	37,495	41,489
State Parks	562	955
State Parks 1937 Deficit	175	
State Audit		1,555
	<hr/>	<hr/>
	951,134	998,303
Estimated Receipts	293,631	278,809
	<hr/>	<hr/>
	657,503	719,494
Valuation	21,479,275	21,400,000 (Estimated)
Tax Rate	\$30.80	\$33.60 (Estimated)

The Committee has taken all these items into consideration in arriving at its recommendations on the various articles. It has put the recommended appropriations as low as it believes it possible to go without reducing wages or seriously crippling the town departments.

Article 5. To make the necessary appropriations to defray the expenses of the Town, and for other purposes, and to raise such sums of money as the Town shall deem expedient.

	Recommended

(*) Amount of Committee's Recommendations to come from other sources than Tax Levy. \$62,500.00.

Article 6. To take such action as the Town shall see fit in aid of the Plymouth Public Library.

The Committee recommends the appropriation of \$8,850.00 including the Dog Tax for 1938 amounting to \$1,593.41.

Article 7. To see if the Town will vote to accept the offer of the Plymouth Cordage Company to permit the use of the Loring Reading Room, and the books, periodicals, furniture and equipment connected therewith as a branch public library, to be operated under the direction of the Plymouth Public Library, and will make the necessary appropriation therefor.

The Committee recommends that the Town accept the offer and appropriate \$3,000.00 for operation in 1939.

Article 8. To see if the Town will appropriate a sum not exceeding seven hundred and fifty (750) dollars in aid of the Manomet Public Library.

The Committee recommends the appropriation of \$750.00.

Article 9. To see what amount the Town will vote to raise and appropriate for the use of the Plymouth County Trustees for County Aid to Agriculture and to choose a Town Director, as provided in Sections 41 and 45 Revised Chapter 128 of the General Laws, and act thereon.

The Committee recommends the appropriation of \$150.00 and the choosing of a Town Director.

Article 10. To see if the Town will vote to appropriate the sum of seventeen thousand (17,000) dollars, Highway Fund, provided by Chapter 2 of the Acts of 1939, for Highway Construction and Reconstruction.

The Committee recommends the appropriation of the \$17,000.00 Highway Fund, for Highway Construction and Reconstruction. \$750.00 to be allotted for use in construction or reconstruction on the Federal Furnace Road in conjunction with the State Department of Public Works and the Plymouth County Commissioners, if required.

Article 11. To see if the Town will appropriate the sum of four hundred (400) dollars for Rifle Range Expenses.

The Committee recommends the appropriation of \$325.00.

Article 12. To see if the Town will appropriate a sum not exceeding four hundred (400) dollars for the Observance of Memorial Day.

The Committee recommends the appropriation of \$400.00.

Article 13. To see if the Town will appropriate a sum not exceeding two hundred and fifty (250) dollars for the Observance of Armistice Day.

The Committee recommends the appropriation of \$250.00.

Article 14. To see if the Town will appropriate the sum of five hundred (500) dollars for the Observance of July Fourth, said money to be expended by the Board of Selectmen.

The Committee recommends the appropriation of \$500.00.

Article 15. To see if the Town will appropriate the sum of two thousand (2,000) dollars for the employment of one or more district nurses. (By Petition)

The Committee recommends the appropriation of \$2,000.00.

Article 16. To see if the Town will appropriate a sum not exceeding fourteen hundred and fifty (1,450) dollars for the cultivation, propagation and protection of shell-fish, to be expended under the direction of the Board of Selectmen.

The Committee recommends the appropriation of \$1,450.00.

Article 17. To see if the Town will appropriate a sum not exceeding twelve hundred and fifty (1,250) dollars to be used in construction on the Federal Furnace Road

to Carver, in conjunction with the State Department of Public Works and the Plymouth County Commissioners.

The Committee recommends the appropriation of \$1,250.00.

Article 18. To see if the Town will appropriate a sum not exceeding thirty-five hundred (3,500) dollars to be used in construction on Water Street, in conjunction with the State Department of Public Works and the Plymouth County Commissioners.

The Committee recommends the appropriation of \$3,500.00.

Article 19. To see if the Town will vote to authorize the Selectmen to sell, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town fourteen (14) days at least before the sale, property taken by the Town under tax title procedure, provided that the Selectmen or whomsoever they may authorize to hold such public auction may reject any bid which they deem inadequate, or take any action relative thereto.

The Committee recommends favorable action by the Town.

Article 20. To see if the Town will appropriate the sum of three hundred (300) dollars to be used for making monthly payments of fifty (50) dollars, to June 30, 1939, to the widow of Herbert R. Benton and the parents of James H. Devitt, said Benton and Devitt having been killed while serving as volunteer firemen in fighting a forest fire in the Town of Plymouth. Authority for such payments is given by Chapter thirteen of the Acts of 1938.

The Committee recommends the appropriation of \$300.00 to be used for the purposes set forth in the article.

Article 21. To see what action the Town will take with reference to renaming Moning Terrace, as requested by the late Charles Moning.

Understanding this to have been the direct request of the late Charles Moning, for whom the way was named, the Committee recommends that the Town so act, and that the name be changed to West Street.

Article 22. To see if the Town will appropriate the sum of seventy-two hundred and fifty (7,250) dollars for the purchase and installation of a Diesel engine pump at the Pumping Station as recommended by the Water Commissioners.

The Committee recommends that the Town take no action under Article 22.

Article 23. To see if the Town will acquire by purchase for school purposes, the land known as the Grace A. Pope property lying on the southwesterly side of Union Street and adjoining other land of the Town of Plymouth, and make an appropriation not exceeding two thousand (2,000) dollars therefor.

The Committee recommends that the Town take no action under Article 23.

Article 24. To see if the Town will instruct the Selectmen to petition the General Court to authorize the Town to borrow fifty thousand (50,000) dollars to be expended for the alteration of the old high school in said Town, and for an addition to said old high school, and for the installation of heating equipment, and for the equipping said old high school and addition for the purpose of establishing and maintaining a trade school therein.

That the Selectmen be instructed to petition the General Court to authorize the Town to borrow \$50,000.00 to be expended for alteration of the old High School and for the installation of heating equipment and for the equipping of said old High School and the addition for the purpose of establishing and maintaining a trade school therein, provided the loan so authorized is duly voted by the Town at some subsequent town meeting, and that the Moderator appoint a committee of seven to investigate

the desirability of establishing a trade school in Plymouth and report to the Town at the next annual town meeting.

Article 25. To see if the Town will appropriate the sum of five hundred (500) dollars for portable seats on Cole's Hill.

The Committee recommends that the Town take no action under Article 25.

Article 26. To see if the Town will appropriate the sum of three thousand (3,000) dollars for the purchase of a new truck for the Forest Fire Warden's Department.

The Committee recommends no appropriation but that a committee of ten be appointed by the Moderator to report to the Town on the advisability of combining the Forest Warden's Department with the regular Fire Department.

Article 27. To see if the Town will appropriate a sum not exceeding fourteen thousand five hundred (14,500) dollars for the purchase of a ladder truck.

The Committee recommends the appropriation of \$14,500.00 for the purchase of a ladder truck.

Article 28. To see if the Town will authorize the Board of Selectmen to lay out and construct, as a W. P. A. project, an intercepting sewer from the Kingston- Plymouth Town Line at Seaside south to Lumber Lane, so-called, and to acquire by purchase, gift or eminent domain the lands and easements necessary therefor and will make the necessary appropriation therefor.

The Committee recommends that the Town so authorize the Board of Selectmen and appropriate \$100.00 for the purposes set forth in Article 28. Mr. William H. Armstrong and Mr. Porter T. Harlow recorded as voting in the negative.

Article 29. To see if the Town will vote to raise and appropriate the sum of five hundred (500) dollars for the

purpose of maintaining, during the ensuing year, the mosquito control works constructed in the Town of Plymouth, as estimated and certified to by the State Reclamation Board in accordance with the provisions of Chapter 112, Acts of 1931.

The Committee recommends the appropriation of \$500.00.

Article 30. To see if the Town will vote to purchase for ranges for small arms practice, drill or parade grounds, two adjoining parcels of land containing fifty (50) acres more or less, situated in Manomet near the Beaver Dam Road, now owned by John H. Murray and under lease to the Town for said purposes; and appropriate, for the purchase and improvement of said land, the sum of eighteen hundred and thirty-eight (1,838) dollars, now in the Town Treasury, received by the Town from sale of the Brooks property at Manomet Point in 1935.

The Committee recommends that the Town take no action under Article 30.

Article 31. To see if the Town will provide co-operation with the Federal Government in unemployment relief and other projects, of direct or indirect benefit to the Town or its inhabitants, and appropriate fifty thousand (50,000) dollars, forty-five thousand (45,000) of which shall be appropriated from money in the Treasury not otherwise appropriated. Said appropriation to be subject to transfers only on orders of the Board of Selectmen for the several projects and for necessary local administration.

The Committee recommends the appropriation of \$40,000.00 from money in the Treasury not otherwise appropriated, to be used for the purposes and in the manner set forth in the article.

Article 32. To see if the Town will instruct the Board of Selectmen to appoint a committee of fifteen (15) to further study the sewage disposal question and report

their findings at the next annual Town meeting; and to see if the Town will appropriate the sum of five hundred (500) dollars for expenses of said committee.

The Committee recommends that the Town vote to so instruct the Board of Selectmen, and appropriate the sum of \$250.00 for said expenses.

Article 33. To see if the Town will appropriate a sum not exceeding forty-five hundred (4,500) dollars for the purchase of a new grader for the Highway Department.

The Committee recommends the appropriation of \$4,500.00 for the purchase of this equipment.

Article 34. To see what action the Town will take on appropriating the sum of one hundred and fifty (150) dollars to defray the expenses of "Old Home Day" on Thursday, November 30, 1939, the said sum of \$150 to be expended under the supervision of the Board of Selectmen.
(By Petition)

The Committee recommends the appropriation of \$150.00.

Article 35. To see if the Town will accept the Act as provided in House Bill No. 1687 and reading as follows: An Act relative to the appropriations by the Town of Plymouth for certain municipal purposes.

Section 1. The town of Plymouth may for the purpose of maintaining an information bureau, replying to requests for information by mail or otherwise, defraying the cost of printing and publication of historical and informative material, participation in events of an historical or civic nature, entertainment of visiting dignitaries, accommodation for conventions of veterans or other patriotic and civic organizations, appropriate a sum not exceeding five thousand (5,000) dollars per year.

Section 2. This act shall take effect upon its passage and upon acceptance by vote of the town, at its annual or any special town meeting held within two years of enactment.

The Committee recommends that the Town take no action under Article 35.

Article 36. To see if the Town will appropriate a sum not exceeding three thousand (3,000) dollars, to be expended under the direction of the Board of Selectmen for the purposes set forth in Article 35.

The Committee recommends that the Town take no action under Article 36.

Article 37. To see if the Town will appropriate a sum not exceeding eleven hundred (1,100) dollars to be expended under the direction of the Selectmen, under Section 6A, Chapter 40, of the General Laws, for the purpose of advertising its resources, advantages and attractions.

The Committee recommends that the Town take no action under Article 37.

Article 38. To see if the Town will appropriate the sum of eleven hundred (1,100) dollars, in accordance with the provisions of Clause 37, Section 5, Chapter 40 of the General Laws (Tercentenary Edition) for providing proper facilities for the holding of conventions and the reception of distinguished guests. Said appropriation to be expended under the direction of the Board of Selectmen.

The Committee recommends the appropriation of \$1,000.00 to be expended under the direction of the Board of Selectmen, for the purposes and in accordance with the provisions of this law.

Article 39. To see what action the Town will take with reference to the recall of Park Commissioner Arthur L. Morse and such other Park Commissioners who may have condoned by official vote or otherwise, the conversion of a town owned portable building into a private cottage on the shores of Hoyt Pond, the same which was returned to the Town following legal demand made upon Mr. Morse

by the Town Counsel, and an investigation made by the Chief of Police. (By Petition)

The Committee makes no recommendation to the Town on this Article as we are advised by Counsel that we ought not to consider the question but should leave the matter to a vote of the Town without recommendation.

Article 40. To see if the Town will appropriate the sum of three hundred and fifty (350) dollars, including two hundred (200) dollars received from insurance on tool house destroyed by fire, to be used for purchase of a road scraper for the Park Department.

The Committee recommends that the Town take no action under Article 40.

Article 41. To see if the Town will accept and allow as a town way, Off Savery's Avenue, from Standish Avenue westerly approximately two hundred (200) feet on Savery's Avenue, thence northerly and easterly to land owned by Augusto Giovanetti, as laid out by the Selectmen and reported to the Town, and appropriate the sum of one hundred (100) dollars for land and property damages and expense of acquiring titles. (By Petition)

The Committee recommends that the Town take no action under Article 41.

Article 42. To see if the Town will accept and allow as a town way, Ocean View Road, westerly from Priscilla Road, approximately five hundred (500) feet, as laid out by the Selectmen and reported to the Town, and appropriate the sum of one hundred (100) dollars for land and property damages and expense of acquiring titles.

(By Petition)

The Committee recommends that the Town accept and allow as a town way, Ocean View Road, westerly from Priscilla Road, approximately five hundred (500) feet, as laid out by the Selectmen and reported to the Town, and appropriate the sum of one hundred (100) dollars for land and property damages and expense of acquiring titles.

Article 43. To see if the Town will vote to permit the material dredged from Plymouth Harbor to be deposited on and adjoining Long Beach in the event that either the United States of America or the Commonwealth of Massachusetts, or both of them in co-operation, undertake the dredging of a mooring basin in Plymouth Harbor, and will direct the Board of Park Commissioners to make the necessary arrangements therefor in co-operation with the proper Federal and State engineers and officials.

The Committee recommends that the Town so vote.

Article 44. To see if the Town will appropriate a sum not exceeding five thousand (5,000) dollars to be paid over to the State Treasurer for certain improvements in Plymouth Harbor, in accordance with a plan prepared by the State Department of Public Works and the U. S. Army Engineers.

The Committee recommends the appropriation of \$5,000.00 to be taken from money in the Treasury not otherwise appropriated.

Article 45. To see if the Town will appropriate the sum of one thousand (1,000) dollars to be used for purchasing and erecting a chain link fence around the Veteran's Field, as recommended by the Park Commissioners.

The Committee recommends the appropriation of \$500.00 for purchasing and erecting a part of this fence.

Article 46. To see if the Town will appropriate from money in the Treasury received from sales of cemetery lots and graves, the sum of five hundred (500) dollars to be used for hard-surfacing roads in Vine Hills Cemetery, as recommended by the Cemetery Commissioners.

The Committee recommends the appropriation of \$500.00, from money in the Treasury received from sales of cemetery lots and graves, for hard-surfacing roads in Vine Hills Cemetery.

Article 47. To see if the Town will appropriate a sum not exceeding one hundred and fifty (150) dollars to be

expended, under the direction of the Plymouth Committee on Agawam and Halfway Pond Fisheries and in addition to a like sum to be appropriated by the Town of Wareham, in rebuilding the fish house on Agawam River destroyed by the hurricane of September 21, 1938.

The Committee recommends the appropriation of \$150.00.

Article 48. To see if the Town will vote to name the junction of Main Street Extension, Sandwich and Water Streets, "Governor Carver Square", and appropriate one hundred (100) dollars to suitably mark it.

The Committee recommends that the Town take no action under Art. 48.

Article 49. To see if the Town will authorize the transfer of a sum not exceeding five thousand (5,000) dollars from the Reserve from Overlayings of Taxes to the Reserve Account in the hands of the Advisory and Finance Committee.

The Committee recommends that the Town authorize the transfer of \$5,000.00 from the Reserve from Overlayings of Taxes to the Reserve Account in the hands of the Advisory and Finance Committee.

Article 50. To see if the Town will instruct the Board of Selectmen to take all necessary action in the name of the Town to cause to be reopened that section of the public way known as Nicks Rock Road lying in that part of the Town known as Braunecker's Farm and crossing property reputed to be owned by one Joseph Teixeira, and to appropriate the sum of one hundred and fifty (150) dollars to defray the expenses incurred. (By Petition)

The Committee recommends that the Town take no action under Article 50.

Article 51. To see if the Town will approve of a minimum wage for all regular town employees of five (5) dollars a day for an eight (8) hour day. This increase in

wages not to affect anyone who receives a salary of more than one thousand three hundred and fifty (1,350) dollars a year.
(By Petition)

The Committee recommends that the Town take no action under Article 51.

Article 52. To see if the Town will approve the purchasing for each individual department head in the Town, who at the present time receives four hundred (400) dollars per year for the use of his or her private automobile, a new automobile, to be town property and used as such. Each new automobile not to exceed eight hundred (800) dollars in cost.
(By Petition)

The Committee recommends that the Town take no action under Article 52.

Article 53. To see if the Town will approve to request the present school committee to turn back to the Town the old high school building on Lincoln Street and to be disposed as the present Board of Selectmen see fit.

(By Petition)

The Committee recommends that the Town take no action under Article 53.

Article 54. To see if the Town will approve of three (3) voting districts in the Town of Plymouth, as follows:

District 1: To include residents who reside north of what is known as the Cold Spring railroad bridge to the Plymouth-Kingston town boundary line, and there to vote at the Cordage Auditorium.

District 2: To include residents who reside south of said bridge to Hotel Pilgrim, said residents to vote at the Plymouth Memorial Building.

District 3: To include all other residents south of Hotel Pilgrim to the town line at Bourne and these to vote at the Bartlett Memorial Hall in Manomet.

(By Petition)

The Committee recommends that the Town take no action under Article 54.

Article 55. To see if the Town will approve printing in the back pages of the Plymouth Town Report annually, an alphabetical list of individuals, companies, corporations, etc., and the amounts paid each by the town and for what purpose. (By Petition)

The Committee recommends that the Town take no action under Article 55.

Article 56. To see if the Town will approve the eliminating of all items listed in the Plymouth town report as "All Others" or "Miscellaneous". (By Petition)

The Committee recommends that the Town take no action under Article 56.

Article 57. To see if the Town will appropriate the sum of two hundred and fifty (250) dollars annually for medical examinations for every civil service employee of the Town of Plymouth for the purpose of determining his or her physical fitness. (By Petition)

The Committee recommends no appropriation but that a special committee of three be appointed by the Moderator to consider the subject matter of Article 57 and report at the next annual town meeting.

Respectfully submitted,

ADVISORY AND FINANCE COMMITTEE
TOWN OF PLYMOUTH

John D. Brewer, Chairman: Daniel W. Besse, Harold B. Currier, Thomas S. Fogarty, George LeRoy Paty, Henry O. Walton, Henry Mengoli, Edmund T. Morton, John N. Scheid, Raymond T. Shipley, William H. Armstrong, Adams W. Bartelli, Porter T. Harlow, Raymond E. Miskelly, Daniel F. Mulcahy.

Attested: Elmer R. Harlow, Secretary.

SPECIAL TOWN MEETING

OCTOBER 10, 1939

AMEDEO V. SGARZI, Moderator

Article Two:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate from money in the Treasury not otherwise appropriated, the sum of two hundred and sixty (260) dollars, for repairs to the property formerly of the Plymouth Mills, now owned by the Town.

Article Three:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of twenty-six hundred (2,600) dollars for Water Department Construction, to provide an additional water main from Jabez Corner to the vicinity of the Jordan Hospital.

Article Four:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of fifteen hundred (1,500) dollars, as its contribution for the improvement of the harbor at Ellisville. Said money to be placed in the hands of the Board of Selectmen for payment if and when the State Department of Public Works contributes an equivalent amount.

Article Five:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of one hundred fifty (150) dollars for the Selectmen's Department.

Article Six:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury not otherwise

appropriated, the sum of fifty (50) dollars for the Town Treasurer's Department.

Article Seven:

Mr. Daniel F. Mulcahy moved: That the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of twelve hundred (1,200) dollars for the Assessors' Department.

Mr. William H. Barrett moved: To amend Mr. Mulcahy's motion by substituting the figure \$700.00 for the figure \$1,200.00, but the motion was lost.

Mr. Mulcahy's motion was then put before the meeting and carried.

Article Eight:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of one hundred (100) dollars for the Town Clerk's Department.

Article Nine:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury, not otherwise appropriated, the sum of one hundred (100) dollars for Town House Maintenance.

Article Ten:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate, from money in the Treasury not otherwise appropriated, the sum of fifteen hundred (1,500) dollars for the Forest Warden's Department.

Article Eleven:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate from money in the Treasury not otherwise appropriated, the sum of thirty-five hundred (3,500) dollars for Soldiers' Benefits.

Article Twelve:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate the sum of ten thousand (10,000) dollars from money in the Treasury not otherwise appropriated for the purpose of providing cooperation with the Federal Government in unemployment relief and other projects, of direct or indirect benefit to the Town or its inhabitants. Said appropriation to be subject to transfers only on orders of the Board of Selectmen for the several projects and for necessary administration.

On motion of Herbert K. Bartlett, Voted: To adjourn.

REPORT OF ADVISORY AND FINANCE
COMMITTEE ON THE
ARTICLES IN THE WARRANT

SPECIAL TOWN MEETING

October 10, 1939

The Advisory and Finance Committee has held two meetings for consideration of this warrant; the subject matter of Article 4 having also been taken up at previous meetings.

The Selectmen, Assessors and Water Commissioners have met with us and furnished such information as has appeared to be necessary.

The Committee recommends favorable action and the appropriation by the Town, from money in the Treasury not otherwise appropriated, of the several sums as stated in all Articles 2 to 12, both inclusive.

Respectfully submitted,

ADVISORY AND FINANCE COMMITTEE
TOWN OF PLYMOUTH

Daniel F. Mulcahy, Chairman: Henry Mengoli, Edmund T. Morton, John N. Scheid, Raymond T. Shipley, Henry O. Walton, William H. Armstrong, Adams W. Bartelli, Porter T. Harlow, Raymond E. Miskelly, Clement A. Briggs, Paul H. Manion, Milton R. Millman, John H. Murray, Robert J. Tubbs.

Attested: Elmer R. Harlow, Secretary.

Article 2. To see if the Town will appropriate the sum of two hundred and sixty (260) dollars, for repairs to the property, formerly the Plymouth Mills, now owned by the Town.

Article 3. To see if the Town will appropriate the sum of twenty-six hundred (2600) dollars for Water Department Construction to provide an additional water main from Jabez Corner to the vicinity of the Jordan Hospital for fire protection.

Article 4. To see if the Town will appropriate and place in the hands of the Selectmen a sum not exceeding fifteen hundred (1500) dollars, as its contribution for the improvement of the harbor at Ellisville by the State Department of Public Works, if and when the State contributes an equivalent amount.

Article 5. To see if the Town will appropriate the sum of one hundred and fifty (150) dollars for the Selectmen's Department.

Article 6. To see if the Town will appropriate the sum of fifty (50) dollars for the Town Treasurer's Department.

Article 7. To see if the Town will appropriate the sum of twelve hundred (1200) dollars for the Assessors' Department.

Article 8. To see if the Town will appropriate the sum of one hundred (100) dollars for the Town Clerk's Department.

Article 9. To see if the Town will appropriate the sum of one hundred (100) dollars for Town House Maintenance.

Article 10. To see if the Town will appropriate the sum of fifteen hundred (1500) dollars for the Forest Warden's Dept.

Article 11. To see if the Town will appropriate the sum of thirty-five hundred (3500) dollars for Soldiers' Benefits.

Article 12. To see if the Town will provide cooperation with the Federal Government in unemployment relief and other projects of direct or indirect benefit to the Town or its inhabitants; and to see if the Town will appropriate the sum of ten thousand (10,000) dollars for this purpose.

All or any of the above appropriations may be from money in the Treasury not otherwise appropriated, if so voted.

REPORT OF ADVISORY AND FINANCE
COMMITTEE ON THE
ARTICLES IN THE WARRANT
FOR SPECIAL TOWN MEETING

December 12, 1939

The Advisory and Finance Committee has conferred with the Board of Public Welfare and the Board of Selectmen on the subject matter of the several articles.

We believe that the amounts as set forth in the articles will fully provide for the departments' needs for the balance of this year. In one or more of these appropriations it is very possible that a few hundred dollars less might be sufficient but, as the money to be appropriated will be from the Excess and Deficiency Account and any unexpended balances will be returned to that account at the end of the year, it has not seemed advisable to make reductions which might result in a lot of unpaid bills being carried over until next March.

The committee therefor recommends favorable action and the appropriation by the Town, from money in the Treasury not otherwise appropriated, of the several sums as stated in all Articles 2 to 7, both inclusive.

Respectfully submitted

ADVISORY AND FINANCE COMMITTEE
TOWN OF PLYMOUTH

Daniel F. Mulcahy, Chairman; Henry Mengoli, Edmund T. Morton, John N. Scheid, Raymond T. Shipley, Henry O. Walton, William H. Armstrong, Adams W. Bartelli, Porter T. Harlow, Raymond E. Miskelly, Clement A. Briggs, Paul H. Manion, Milton R. Millman, John H. Murray, Robert J. Tubbs.

Attested: Elmer R. Harlow, Secretary.

Article 2. To see if the Town will appropriate the sum of seventy-five hundred (7,500) dollars for the Public Welfare Department.

Article 3. To see if the Town will appropriate the sum of twenty-five hundred (2,500) dollars for Aid to Dependent Children.

Article 4. To see if the Town will appropriate the sum of thirty-five hundred (3,500) dollars for Old Age Assistance.

Article 5. To see if the Town will appropriate the sum of eighteen hundred (1800) dollars for Soldiers' Benefits.

Article 6. To see if the Town will appropriate the sum of one hundred and twenty-five (125) dollars for the Selectmen's Department.

Article 7. To see if the Town will appropriate the sum of three hundred (300) dollars for Rifle Range Expenses.

All or any of the above appropriations may be from money in the Treasury not otherwise appropriated, if so voted.

ADJOURNED SPECIAL TOWN MEETING

December 14, 1939

AMEDEO V. SGARZI, Moderator

Article Two:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate from money in the Treasury not otherwise appropriated, the sum of seventy-five hundred (7,500) dollars for the Public Welfare Department.

Article Three:

On motion of Daniel F. Mulcahy, Voted: That the Town appropriate from money in the Treasury not otherwise appropriated, the sum of twenty-five hundred (2,500) dollars for Aid to Dependent Children.

On motion of Alfred P. Richards, Voted: to adjourn.

ANNUAL REPORT
OF THE
Board of Selectmen
OF THE
Town of Plymouth

For the Year Ending December 31,

1939

REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Plymouth:

The general scheme of financial administration of a town rests upon the exercise of common sense applied to practical problems of municipal government. The promotion of the public's rights and safety is involved to a great degree. It must be supported by taxation, dependent upon appropriations voted at Town Meeting with due consideration to legislative laws. It is necessary to consider municipal economy, the rate of taxation, the efficiency of public service, the necessities for the preservation of law and order and many other details.

With due regard to the above factors, the affairs of the Town, as related to this Board for the year 1939, have been duly administered, the details of which are enumerated elsewhere in this book, with a thought to economy and the best interests of our town.

Respectfully submitted,

JAMES T. FRAZIER
HOWARD M. DOUGLAS
ANDREW J. CARR
JAMES A. WHITE
WILLIAM H. BARRETT

Board of Selectmen

REPORT OF SUPERINTENDENT OF STREETS AND SEWERS

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit a report of the work done in the Street and Sewer Departments from January 1, to December 31, 1939.

SEWERS

108' of 8" sewer pipe was laid to extend the Main Sewer on Cole's Lane for a new service at the Jordan Hospital. 4,810' of 8" sewer pipe was laid on Nook Road, South St. and Braley Lane with 19 manholes. This was laid with W. P. A. labor under Highway Department supervision.

STREET CLEANING

The usual work of cleaning streets was carried out this year.

ASPHALT SIDEWALKS

Approximately 8,160 sq. yds. of Hot-Mixed sidewalks were laid on various streets. On the easterly side of Water St., the old granolithic sidewalk was removed by the Highway Department and replaced by W. P. A. labor.

HARD-SURFACED STREETS

On 16 streets, the old surface was scarified, brought to grade with gravel and a top surface of No. 2 stone and tar, including a sand and tar seal. 8 streets were resurfaced with $\frac{1}{2}$ " stone and tar, mixed in place and rolled. 1,653' of trench was brought to grade and hard-surfaced with tar and No. 2 stone.

SPECIAL BUDGET

Approximately $1\frac{1}{2}$ miles of Ellisville Road was widened and resurfaced with $\frac{1}{2}$ " stone and tar. 3 miles of Long Pond Road was sealed with asphalt and sand. Birch Ave., Ocean View Road were widened and graded with gravel.

GRANOLITHIC SIDEWALKS AND CURB

835 lineal feet of cement curbing and 596 sq. yds. of cement sidewalk were laid. Several cement slabs were replaced that were broken or raised by tree roots.

FEDERAL FURNACE ROAD

Approximately 1 mile of 2" Mixed-in-Place top was laid over a 4" base of Mixed-in-Place base consisting of tar and gravel. 1 mile of surface was sealed with tar and sand that was constructed in 1935.

FARM TO MARKET ROADS

With the Federal Government furnishing the labor and the town the material and supervision, the following roads were widened and gravelled: Watercourse Road, Rocky Pond Road and the continuation of Sandwich Road.

SIDEWALKS AND CURBING

5 miles of cement curbing and asphalt sidewalks under Highway Department supervision, have been built by W. P. A. labor.

Lines and grades for streets and sewers have been supplied by our Town Engineer, Arthur E. Blackmer, and records of same kept on file.

Respectfully submitted,

ELMER C. CHANDLER,

Supt. of Streets and Sewers

ANNUAL REPORT
OF THE
TOWN CLERK

Births, Deaths, Marriages

Town of Plymouth

For the Year Ending December 31,

1939

	<hr/>
	225

DEATHS, 1939

Number of deaths registered, 222, of which 45 were non-residents, and 39 died out of town, burial taking place in Plymouth.

There have been issued from the Town Clerk's Office for the year 1939, licenses as follows:

Resident Citizen's Fishing Licenses	367
Resident Citizen's Hunting Licenses	420
Resident Citizen's Sporting Licenses	216
Resident Citizen's Minor and Female Licenses	88
Resident Citizen's Minor Trapping Licenses	5
Resident Citizen's Trapping Licenses	6
Resident Citizen's Sporting (Free) Licenses	85
Special Non-Resident Fishing Licenses	7
Non-Resident Citizen's Fishing Licenses (Minor)	1
Non-Resident Citizen's Fishing Licenses	7
Non-Resident Hunting Licenses	0
Duplicate Licenses	6
Resident Citizen's Lobster and Crab Licenses	97
Male Dog Licenses	674
Female Dog Licenses	280
Kennel Licenses	3

HERBERT K. BARTLETT,

Town Clerk.

EIGHTY-FIFTH ANNUAL REPORT
OF THE
Water Commissioners
AND
Superintendent
OF THE
Town of Plymouth

1939

REPORT OF WATER COMMISSIONERS

The Water Commissioners herewith submit their eighty-fifth annual report.

RECEIPTS

BONDED DEBT

On January 1, 1939, the bonded debt of the Water Department was \$30,000.00. During the year 1939 this amount has been reduced to \$20,000.00 by a principal payment of \$10,000.00. The interest paid during the year was \$1,200.

REVENUE

The total collections for 1939 amounted to \$46,500.29, divided as follows:

Plymouth System	\$39,414.84	
Manomet System	7,085.45	
	<hr/>	\$46,500.29

It may be interesting in this connection to note that the *average annual* collections for the past six years (1934 to 1939) have been \$45,000.00.

PUMPING STATION

The Diesel engine driven pumping plant at the Lout Pond station has continued to give satisfactory service during the past year. This unit operated 2,782 hrs. in 1939 and pumped 297,743,000 gals. of water against a head of 72 ft., using 9,080 gals. of fuel oil. Or, stated another way, 32,800 gals. of water was pumped for each gal. of fuel oil consumed. The record for the previous year was 31,700 gals. pumped per gal. of fuel oil used.

The Barr steam pump, used as a standby, was operated 166½ hrs. during 1939 and pumped 14,100,000 gals. of water. The *fuel* cost per million gals. of pumping with the Diesel engine for the two year period of 1938 and 1939 was \$1.40. The *fuel* cost per million gallons with the Barr steam over a six year period from 1932 to 1937 inclusive was \$6.80.

The cost of fuel oil, used in the Diesel, was 4.26 cts. per gal. and the average cost of soft coal was \$6.86 per net ton.

We wish at this time to stress the danger of relying on the present standby pump for dependable use. This

unit consists of a direct acting Barr pump of 2 million gals. per twenty-four hours capacity, installed in 1903. One of the steam boilers was installed in 1903 and the other 1899.

The Commissioners feel that they do not wish to assume the responsibility of continuing this Barr pump and these boilers in service any longer and therefore recommend a new Diesel engine and pump, a duplicate of the one now in use, to be placed on the Barr pump foundation. The cost of the installation which would include Diesel engine and pump, pipe connections to existing suction and discharge, and a heater for the pump room would be \$7,250.00.

We, therefore, urge the Town to make this appropriation in order that this new work may be done during 1940 and that the hazard of relying on the steam installation (parts of which are 37 years old and parts 40) may be eliminated.

PROPOSED NEW WORK

The report of the Superintendent shows a table in detail of the lengths and sizes of new pipe lines laid during the year, and the cost of material used on each job.

For the year 1940 we recommend new pipe on Chestnut Street, and a section of Allerton Street and Samoset Street.

It happens almost invariably each year, after appropriations are passed on, at the Town Meeting, that requests are made for minor extensions of main pipe that had not been anticipated when making up the budget. The Commissioners feel that they should be in a position to comply with such requests as seem to them warranted. We therefore, recommend an appropriation of \$6,000.00 for Construction, which will be sufficient to do the proposed work on Chestnut Street, Allerton Street, and Samoset Street, and allow for some extensions that cannot now be foreseen.

NEW TRUCK

We are recommending a new 1-ton truck to replace one bought in January of 1935. This truck has been run 57,000 miles and expensive repairs will have to be made if it is to be used. The net cost of the replacement will be \$700.00.

The Water Commissioners recommend, therefore, the following budget for 1940.

Maintenance	\$25,000.00	
Construction	6,000.00	
New Truck	700.00	
New Diesel and Pump	7,250.00	
	<hr/>	\$38,950.00

Respectfully submitted,

WM. R. MORTON, Chairman
JOHN L. MORTON
JOHN H. DAMON
RICHARD T. ELDRIDGE
EDWARD R. BELCHER
Board of Water Commissioners

SUMMARY OF STATISTICS

(Published by request of the New England Water Works Association, Plymouth, Mass. Water Works.)

Population, 13,175.

Date of Construction, 1855.

By Whom owned, Town.

Source of Supply, Great and Little South Ponds.

Mode of Supply, Gravity for low service and Pumping for high service.

PUMPING

Builders of pumping machinery: Barr, Fairbanks-Morse and Goulds.

Description of fuel used:

(a) Kind, Bituminous coal and Fuel Oil.

(b) Brand of coal, New River, sel. R/M.

(c) Average price of coal per net ton delivered, \$8.25.

Coal, consumed for the year:

Bituminous, 28,930 lbs.

Amount of other fuel used, 9,080 gals. Fuel Oil.

Total equivalent for the year 28,930 lbs. coal and 9,080 gals. Fuel Oil.

Pumpage for the year:

Barr, 14,099,000 gals., with 3% allowance for slip.

Fairbanks-Morse, 13,426,000 gals.

Goulds, 297,743,000 gals.

Average static head, 65 ft.

Average dynamic head, 72 ft.

Number gallons per lbs. coal:

Barr, 487

Duty of Pumps:

Barr, 29,123,000.

COST OF PUMPING FIGURED ON PUMPING STATION EXPENSES, VIZ: \$5,822.04

Per million gals. against dynamic head into direct pipe, \$17.90.

Per million gals, raised one foot high (dynamic), \$0.248

COST OF PUMPING FIGURED ON TOTAL
MAINTENANCE, VIZ: \$22,823.63

Per million gals. against dynamic head into direct pipe,
\$70.17.

Per million gals. raised one foot high (dynamic), \$0.974.

STATISTICS ON CONSUMPTION OF WATER

Total population, estimated, 13,175.

Estimated population on pipe line, 12,500.

Estimated population supplied, 12,500.

Total consumption for the year, 536,150,000.

Average daily consumption, 1,468,000 gallons

Gallons per day to each inhabitant, 111.

Gallons per day to each tap, 432.

STATISTIC RELATING TO DISTRIBUTION
SYSTEM

Kind of pipe used: Cement lined sheet iron and cement
cast iron.

Sizes: From 2-inch to 30-inch.

Extended: 3,683 feet.

Discontinued: 1,513 feet.

Total now in use: 78 miles, 1,539 feet.

Cost to repair per mile, \$1.42.

Number of leaks per mile, 0.140.

Small distribution pipe less than 4-inch, 8 miles, 2,206 ft.

Hydrants now in use, 323 public; 73 private.

Stop gates added, 6. Discontinued, 2. Number now in
use, 866.

SERVICES

Kind of pipe: Lead and Cement lined.

Sizes: From one-half to four inches.

Extended: 1,047 feet. Discontinued: None.

Total now in use: 9 miles, 4,989 feet.

Service taps added: 50. Discontinued: None.

Number now in use: 3396.

Average length of services: 20.9 feet.
 Average cost of service: \$15.24.
 Number meters added: 109.
 Number now in use: 2,629.
 Percentage of services metered: 77.4%.

SUPERINTENDENT'S REPORT

To the Board of Water Commissioners:
 Gentlemen:

I herewith submit the annual report of the Superintendent for the year ending December 31, 1939.

TABLE SHOWING LOCATION, SIZE AND COST OF PIPE LAID DURING YEAR 1939

Location	Length in ft.	Size in inches	Cost
Russel Street	570	8	\$1,071.90
Seaver Street	50	6	79.93
Allerton Street	404	8	
	32	6	787.01
	8	4	
Goddard Court	82	3 (Galv.)	
	52	2½ "	89.83
	95	2 "	
Willard Place	220	2½ "	89.65
Highland Terrace	410	6	530.15
	1,923		\$2,648.47
(Spec. Sandwich Road Appro.)			
(Hospital job)	1,010	8	1,527.82
(WPA) Cherry Street Ext.	750	6"	819.96
	3,683		\$4,996.25

MANOMET SYSTEM

The very dry spell through July and part of August when only 0.87" of rain fell from July 1 to August 12, inclusive, necessitated running the small booster pump on the Shore Road to insure filling the Stone Tank each day. The pump was operated 350 hours in July and 502 hours in August.

In my opinion it would be desirable to make some studies during the coming year to determine the possibility of developing an auxiliary water supply in Manomet that would be available during periods of heavy draught each year when the demand on the whole system is at a maximum.

If we are able to develop such a supply it will not be necessary to operate the booster on Warren Avenue, since water from this new source could be pumped directly into the Porter Harlow tank and distributed from there into the whole system.

STANDPIPES

In April 1939 the 50,000 gal. standpipe at the Pine Hills was emptied and painted two coats of red lead inside and in May 1939 the 50,000 gal. tank on Cherry Street was similiarly painted. The total cost of both these jobs for labor and material was \$260.20.

These tanks will probably not need further attention for a period of four years.

RAINFALL

The average annual rainfall in Plymouth, as determined from a fifty-three year record has been 46.27" and the rainfall for 1939 was 44.17".

During July and part of August we experienced a considerable drought. The July 1939 rainfall was 0.79", compared to a normal July rainfall of 3.26", and although the August 1939 rainfall was 4.10", compared to 3.63" normal for August, the total for the two months was only 4.89" against a normal of 6.89" over a 53 year period.

The result of this low rainfall is mentioned in another part of this report as being responsible for about 850 hours of operation of the Warren Avenue booster pump to keep Manomet standpipes filled.

HYDRANTS AND GATES

During the year, the usual inspection of hydrants and gates was taken care of, as well as painting most of the

hydrants. Both hydrants and gates, at this writing, are in excellent working order.

ANALYSIS OF WATER

Sample of water from our source of supply were forwarded to the State Department of Public Health for the customary analyses, reports of which are on file in the office of the Superintendent.

Respectfully submitted,

ARTHUR E. BLACKMER,
Superintendent

REPORT OF POLICE DEPARTMENT

To the Honorable Board of Selectmen:

Following is the report and activities of the Police Department for the year ending December 31, 1939.

ARRESTS FOR THE YEAR

Females	15
Males	415
Total	430

Amount of Fines Imposed	\$3,658.00
Property Recovered	3,110.44
Mileage of Department	75,853 miles

TYPES OF AUTOMOBILE ACCIDENTS

Pedestrians, Fatal	3
Pedestrians, Fatal, Private property	1
Operator, Fatal	1
Pedestrian injured	22
Automobile Property damage	135
Automobiles Injured	56
Total	218

Respectfully submitted,

RUSSELL P. DEARBORN,

Chief of Police.

NOTE: See Town Accountant's Report for Expenditures of this Department.

REPORT OF THE BOARD OF PUBLIC WELFARE

February 21, 1940.

To The Citizens of the Town of Plymouth:

The Board of Public Welfare submits herewith its annual report for the year 1939. In the interest of economy it is brief. The problems of the past year have been neither unusual nor overburdensome. It is common knowledge that the appropriations made at the March meeting for Temporary Aid, Aid to Dependent Children and Old Age Assistance proved to be insufficient, with the result that additional appropriations were sought and obtained at a special meeting in December. The primary reason for the increase in actual over anticipated expenditures for temporary aid was the failure of the relief load to decrease during the summer months. The absence of this usual seasonal drop meant a marked increase in expense. To whatever cause you attribute the phenomenon, it was an actual fact that relief demands were much heavier than anticipated and, as a consequence, the appropriation was used up the more quickly. With Old Age Assistance and Aid to Dependent Children, the amounts actually appropriated in March were less than the amounts estimated to be required. In each case the actual requirements proved to equal the estimates.

In making up the budget for 1940, certain items have been included relating to changes in the administrative setup. Some changes have already been made. It is hoped that we can go further. A full time visitor is necessary, beyond question. With the increase in relief load, the added requirements relative to reports, etc., from the Commonwealth, and the ever present necessity for strict

supervision of the administration of relief, it is of vital importance to the town that an adequate staff be maintained by this Department. The present staff is not able to handle the work properly. The changes instituted over the past year have improved the situation, but much remains to be done.

Respectfully submitted,

EDMUND J. PRIESTLY, Chairman,
A. RODMAN HUSSEY, Jr., Sec'y.
THOMAS W. LOFT,

Board of Public Welfare of the
Town of Plymouth.

REPORT OF THE BUREAU OF OLD AGE ASSISTANCE

To the Citizens of the Town of Plymouth:

The Bureau of Old Age Assistance presents herewith its annual report for the year 1939.

During the past year, there were 418 cases that received assistance from this Department which aid amounted to \$121,708.32. As the Federal Government reimbursed the Town one-half up to \$30.00 expended in each case, the Town received \$55,182.74 for assistance rendered. Of the balance which is \$66,525.58 the Commonwealth will reimburse the Town approximately two-thirds leaving a net cost to the Town of Plymouth of approximately \$22,175.20 for the 418 cases that received assistance.

The total cost for the administration of Old Age Assistance for 1939 was \$3,236.69. Of this amount the Federal Government reimbursed the Town \$1,859.27 leaving a net cost to the Town for administration of \$1,377.42.

Ending December 31, 1939 we had a case load of 362 and we anticipate a net increase in our case load in 1940 of about two cases a month or twenty-four cases for the year.

Beginning January 1, 1940 the Federal Government will reimburse the Town one-half of the amount of assistance given in each case up to \$40.00 per month. This will help to reduce the net cost to the Town for Old Age Assistance for 1940.

Last year the Bureau requested an appropriation of \$68,000.00. The Finance Committee recommended that \$65,000.00 be appropriated which was done. At the special town meeting in December it was found necessary to ask* for an additional appropriation of \$3,500.00 to enable us

to complete payments to recipients for the month of December.

It is earnestly hoped by the Bureau that the Town will appropriate the sum of \$76,500.00 estimated by the Bureau to be the amount necessary to properly administer Old Age Assistance for the year 1940.

Respectfully submitted,

EDMUND J. PRIESTLY,
Chairman Pro Tem
HAROLD S. DAMON
THOMAS W. LOFT

PLYMOUTH PUBLIC LIBRARY AND LORING LIBRARY

To the Directors of the Plymouth Public Library :

The annual report of the Plymouth Public Library and Loring Library is herewith presented :

Of 1,243 books added by purchase ; 448 were adult non-fiction, 565 adult fiction, and 230 juvenile books. The total number of books in the library is 24,396.

Library circulation for the year was 127,891 books and 2,287 prints ; including 93,970 adult books, 19,588 juvenile and 14, 443 school deposit circulations.

LORING LIBRARY

The Directors of the Plymouth Public Library assumed the management of the Loring Library on May 1, 1939. If this library was to operate efficiently as a unit of the main library it seemed wise to reorganize all departments. The library committee of the Board of Directors made new rulings affecting borrower's privileges and circulation of books to conform as nearly as possible with those observed at the main library.

Hours open to the public were increased from 28 to 42 hours. The desk and charging systems were simplified and are now uniform. The library was crowded ; shelves were full and books were stacked in inaccessible places. The librarian examined all books and discarded obsolete and worn out volumes. There were months of clerical work and physical labor involved in this discarding of books, and we were fortunate in having two National Youth Administration workers who also lettered with an electric stylus all non-fiction books in the library.

There was immediate need of new books and with little knowledge of the reading requirements of Loring Library

adult users it seemed wise to purchase liberally only juvenile and intermediate books. These departments in the past few years had received less consideration. The junior and senior high school supplementary reading collection was in need of new titles which were purchased; the reference collection used almost entirely by school pupils received consideration as well. As reading habits of adult readers were observed it was possible to purchase many new titles for this department. From May 1 to December 31, 641 books were added. Of this total 312 were adult, 313 juvenile, 16 were reference books.

In 1939 the library circulated 27,507 books; 21,835 were adult books and 5,672 were juvenile. The circulation gain over the preceding year was 5,459.

All borrowers have been re-registered and in the six months period 472 adults, 299 children, a total of 772 have registered.

Respectfully submitted,

CHARLOTTE HASKINS,

Librarian.

REPORT OF THE PARK COMMISSIONERS

The Park Commissioners herewith submit their report for 1939.

The receipts of the bath house at Beach Park showed an increase over 1938, Received in 1939, \$492.43 as compared with \$468.95 in 1938.

The camping receipts at the Indian Reservation camp grounds were for 1939, \$1,055.07 which was an increase over the \$917.00 in 1938.

The receipts from the Nelson Street Camp Grounds were \$1,527.15 for 1939 and in 1938, \$1,588.75.

The bath house at Morton Park had as receipts for 1939, \$65.10; for 1938, \$64.60.

Stephens Field bath house receipts in 1939 were \$37.51 as compared with \$42.90 in 1938.

The Park Commissioners wish to thank the Welfare Department in giving many hours of labor and, through this cooperation, the department was able to accomplish much work which required attention.

Veterans' Field attained a greater popularity the past year than ever before and a Field Day climaxed a successful season.

Stephens Field had its usual popularity and the work done by W. P. A. on the tennis court and field received much praise.

The W. P. A. project in all parks has accomplished much, which otherwise could not have been done with our appropriation.

The usual maintenance has kept all Parks in good shape and with the cooperation of the personnel we have been able to keep within our appropriation.

ALMORE W. BURGESS, Chairman
ARTHUR L. MORSE
GEORGE T. FOX

REPORT OF THE BOARD OF HEALTH

To the Citizens of the Town of Plymouth:

The Board of Health herewith presents its annual report together with the reports of its various appointees for the year ending December 31, 1939.

The report of our appointees show the work has been carried on in the usual manner.

Four clinics were held for the immunization against diphtheria under the supervision of Doctor Abate and the Community nurses, with 67 children under school age immunized. State records show a great decline in reported cases of diphtheria. We wish more parents would avail themselves of this opportunity, and have their children immunized after the age of six months.

An average of five persons have been at the Plymouth County Tuberculosis Hospital during the year, and three out-patients reported for treatment each month. There were thirty-eight contacts examined and X-rayed. Two patients at Lakeville State Sanatorium and one at Rutland State Hospital.

Contagious diseases reported as follows:

Chicken Pox	137
Dog Bites	46
Menengitis	2
German Measles	6
Lobar Pneumonia	2
Measles	354
Mumps	300
Scarlet Fever	8
Tuberculosis	3
Whooping Cough	17
Typhoid Fever	2
Gonorrhea	11
Syphilis	10

Of the eight cases of scarlet fever reported three were from a summer camp being out of town cases. Measles and mumps were very prevalent with a great number of cases not being reported, where no physician was called, therefore we have no exact record.

The collection of garbage has been carried on in the usual way having very few complaints.

REPORT OF SANITARY INSPECTOR

July 1, 1939 to Dec. 31, 1939

E. Elroy Morse

Complaints:

Rubbish	69

Respectfully submitted,

HERBERT S. MAXWELL, Chairman
WIGGIN L. MERRILL, M.D.
RUDOLPH E. SWENSON, M.D.

REPORT OF FIRE COMMISSIONER

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit the annual report of the Plymouth Fire Department for the year 1939.

It is with considerable satisfaction that again I report the high standing of efficiency which is still being maintained, as shown by the records of 1939.

You will note that the number of alarms has increased to 404 as against 313 for the previous year, indicating an increase of 91.

The assessed value of buildings, and contents involved, is \$347,100, the loss being \$28,730.00. Based on 13,000 inhabitants, this shows a loss of \$2.21 per person, or 8.2% of the property involved.

BUILDINGS

Both the Central and North stations are in need of considerable repairs to the brick work, and the doors of the Central Station should be replaced. It is also hoped that your Honorable Board will deem it advisable to go forward with the approved W. P. A. Project to increase the toilet facilities and make possible a fire-proof room for the fire alarm apparatus.

FIRE ALARM AND RADIO

The outside lines of the fire alarm system are in good condition but should be extended further south from Cliff Street. The repeater is in need of overhauling. This is expected to be done early in 1940.

APPARATUS

It is still my firm opinion that both from an economical and efficiency maintenance standpoint, a progressive plan of replacement should be started. After a thorough investigation made by the Special Committee appointed at the 1939 Annual Town Meeting, this opinion has been substantiated.

Respectfully submitted

HENRY WALTON,
Fire Commissioner

REPORT OF FIRES FOR 1939

Traveled 1,692 miles; Pumper used 376 times; false alarms, 6; H. H. Inhalator 4 times and the E. & J. Resuscitator used 5 times. Feet of hose used, 50,980; water from booster tanks, 19,568 gallons. Feet of ladders used, 2,650; 797 gallons chemicals.

Assessed value of buildings, \$249,120.00; Insured, \$261,450.00; Value contents \$97,980.00; Insured contents, \$78,005.00; Loss on buildings, \$26,413.00; Loss on contents \$2,317.30; Total value, \$347,100.00; Total loss, \$28,730.30.

ORGANIZATION

Fire Commissioner, Henry Walton; Chief, Everett B. Wood; Deputy Chief, Clifton Hatton; Fire Department Surgeon, Dr. William E. Curtin; 4 Captains, 3 Lieutenants; 16 Permanent men, and 33 Call Men.

Respectfully submitted,

EVERETT B. WOOD,
Chief

REPORT OF THE CEMETERY COMMISSIONERS FOR THE YEAR 1939

OAK GROVE and VINE HILL CEMETERY

HARD SURFACING ROADS

A special appropriation of \$500.00 was made at the Town Meeting for hard surfacing roadways in Oak Grove Cemetery. The section selected was the easterly Summer Street exit, connecting Summer Street, with the finished hard surface put in the previous year. The total length of this work was 760' containing approximately 1,070 sq. yards. This work seems to meet with the general approval of those who use the Cemetery driveways and we recommend an appropriation of \$500.00 to continue hard surfacing another section during the year 1940.

SURVEY AND PLAN

A WPA project, sponsored by the Selectmen and the Cemetery Commissioners, for a survey and plan of Oak Grove and Vine Hill Cemetery was started in April, 1938, as mentioned in our report of last year. This work was completed during 1939. As a result of this work, we have a revised and accurate map on a scale of 40' to the inch of both Vine Hill and Oak Grove. The areas of all lots shown on this map have been checked against the deed areas and shown on cards in the office of the Cemetery Superintendent. In every case where there was a discrepancy the correct area was entered on the card. This marks the satisfactory completion of a worth while job.

PROPOSED ADDITION

The undeveloped areas in Vine Hill Cemetery that lend themselves to future lot development are growing smaller each year. The average number of lots sold annually is

approximately twenty. Faced with these facts, your Commissioners feel that action should be taken by the Town towards acquiring additional land for Cemetery purposes and we recommend the purchase of a six acre piece, owned by Domero Cortelli et als. This lot is bounded on the east by Vine Hill Cemetery, on the north by Samoset Street, on the west by Doyle and Blenn and southerly by Saint Joseph Cemetery. It is our understanding that this lot can be bought for \$2,500.00.

In Mr. Waddell's report to the Selectmen, June 6, 1938, the following paragraph occurs:

"Proceeds from the sale of lots and graves should be kept in a separate account and such funds may be appropriated by vote of the Town for care, improvement and embellishment, or the enlargement of the cemetery."

We understand, from the Town Accountant, that this fund at present amounts to \$6,204.56. We, therefore, recommend an appropriation of \$3,000.00 for purchase and improvement of the above described lot for cemetery purposes, to be appropriated from this fund. If this land is acquired it could be developed either as WPA project or by Welfare labor.

BURIAL HILL

The usual maintenance work has been carried out during the year. Using part of a \$300.00 appropriation made last year for the preservation of old stones, the stones of Thomas Faunce, Joseph Bartlett and Nathaniel Jackson have been encased in granite at a cost of \$200.00. The method of protection of old stones in this way makes a very neat job and, apparently, a durable one.

We recommend an appropriation of \$200.00 to continue this work during the ensuing year.

CHILTONVILLE, CEDARVILLE, MANOMET & SOUTH POND CEMETERIES

No special work was carried on in any of the outside cemeteries during the past year. A beginning was made

in painting the fence at the Chiltonville Cemetery but not enough Welfare labor was available to complete the work. We hope to be able to do that the coming year.

Some roadways have been laid out in the Manomet Cemetery Addition that was graded as a WPA project during 1939 and a plan has been prepared showing a proposed sub-division into lots.

It is important to note that a substantial part of the appropriations for the Cemeteries is spent for services for which the Town receives reimbursement although these receipts are not available for use of the department. For the last three years the Town has received the following amounts for these services:

	1937	1938	1939
Care of Lots & Graves	\$1,679.02	\$1,737.98	\$1,313.49
Miscellaneous	1,405.92	1,175.69	1,545.84
	<hr/>	<hr/>	<hr/>
	\$3,084.94	\$2,913.67	\$2,859.33

We recommend the following appropriations for the year 1940.

Oak Grove & Vine Hill Cemetery	\$10,000.00
Burial Hill	1,500.00
Outlying Cemeteries	800.00
Hard Surfacing in O. G. & V. H.	500.00
Protecting Old Stones	200.00
Proposed Addition to V. H. Cemetery	3,000.00
	<hr/>
	\$16,000.00

Respectfully submitted,

ARTHUR E. BLACKMER, Chairman
RICHARD T. ELDRIDGE
EDWARD R. BELCHER
Board of Cemetery Commissioners

DEPARTMENT FOR THE INSPECTION OF
BUILDINGS

To the Honorable Board of Selectmen:

Gentlemen:

I hereby submit my annual report on building operations within the Town, for the year ending December 31, 1939.

No.	Kind	Est. Cost.
22	Single Family Dwellings	\$94,600
19	Summer Camps	18,675
19	Garages	8,700
16	Other Buildings	33,560
14	Additions and Alterations to Dwellings	20,050
22	Additions and Alterations to Other	
—	Buildings	80,575
112		<hr/>
		\$256,160

Respectfully submitted,

THOMAS A. BODELL,

Inspector of Buildings

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:

Gentlemen:

In compliance with Chapter 98, Section 34, General Laws of Mass. I herewith submit a report for the year 1939 as Sealer of Weights and Measures, period from January 1 to December 31, 1939:

Total number of measuring instruments:

Tested	2,450
Adjusted	176
Sealed	2,391
Not Sealed	176
Condemned	59

Total amount of fees collected \$377.79

Total inspections which permit no fees:

¼ bbl. Cranberry Boxes	45,899
All Other	781

Trial weighings and measurements of commodities
sold or put up for sale:

Total number tested	205
Correct	28
Under	55
Over	122

Respectfully submitted,

DANIEL J. SULLIVAN,

Sealer

REPORT OF HARBOR MASTER

To the Honorable Board of Selectmen:
Gentlemen:

During the year of 1939 the required amount of alewives were stocked from Town Brook, Eel River and White Horse Beach.

A total of 12,170 motor boats, fishing boats and yachts were in and out of Plymouth Harbor during the year, an increase of 2510 over 1938.

Fees taken at the Town Wharf amounted to \$99.08.

I should like to again stress the need of a light at the Town Float, to eliminate the existing danger of accidents on the runway after dark, and the need of dredging in Plymouth Harbor for anchorage, as there is no water around the wharf at low tide except on the end.

Respectfully submitted,

ELMER BOUTIN,
Harbor Master

REPORT OF COMMITTEE ON INLAND FISHERIES

To the Honorable Board of Selectmen:
Gentlemen:

The appropriation for 1939 of three hundred dollars was expended for yellow perch. We believe that the growth of the perch in our ponds has been stunted by the close interbreeding of our old seed fish and that, with this influx of new blood, they will develop properly.

The Committee requests that a like amount be appropriated this year to carry on this work.

We sincerely regret that "Jeff" Perrior cannot be with us to give advice in the matters, in which he was so well versed. His knowledge and genial personality will be greatly missed.

Respectfully submitted,

W. S. GALE
M. D. WELSH

GYPSY AND BROWN TAIL MOTH ACCOUNT

To the Honorable Board of Selectmen:

The various lines of work in this Department have been quite fully explained in past reports, and it is only necessary to state that the work during 1939 was carried on in the same manner, as far as money allowed. As a whole, the Town is in a very fair condition. This Department has now one other pest to contend with, namely the Japanese Beetle, found this year eating everything before them, especially in yards where there were grape vines, hollyhocks, rose bushes etc. We have been experimenting this year with all kinds of insecticides, and I think we are now able to handle the situation and keep them from doing much damage.

It is very necessary for this Department to share the expense with the Tree Warden Department for a new car for 1940. The present car is nearly seven years old and very expensive to run. The cost to each Department would be about \$250.00.

I recommend an appropriation of \$6,000.00 for labor and supplies for 1940.

Respectfully submitted,

ABBOTT A. RAYMOND,

Superintendent

REPORT OF THE FOREST WARDEN

Manomet, Mass., Feb. 8, 1940

To the Honorable Board of Selectmen:

Gentlemen:

I submit the following report for the Forest Warden's department for 1939.

We had seventy-one brush and woods fires during the year but the entire area burned was less than one thousand one hundred acres.

Thanks to the activity of E. E. Holman of Chiltonville he was presented with enough money by one of our summer residents to purchase a good second hand truck for forest fire work which the board of selectmen saw fit to equip.

I wish to sincerely thank Charles Cherry of the Myles Standish State Forest, Mr. William Day county fire warden of Wareham, also Arthur J. Terry for his wonderful work and cooperation.

Also wish to thank Wareham, Bourne, and Duxbury who are always ready to help.

Last I wish to thank the entire personnel of the Central Fire Department for their help and cooperation at all times.

Wishing the new Forest Warden all success I remain

Very truly yours,

JAMES S. A. VALLER,

Forest Warden

TREE WARDEN ACCOUNT

To the Honorable Board of Selectmen:

Gentlemen:

During 1939 all street trees were sprayed and part of the hurricane damage cleaned up, although there still remains some to be done. The Elm Beetles were very plentiful this year, but no damage resulted.

Several trees were planted on the water front and they did very well, although it was so dry that considerable watering was necessary. Trimming was done over the entire Town, as well as any other care that the trees needed.

This Department is planning to plant at least fifty trees during 1940, and do the necessary trimming and spraying, as well as finish up the hurricane damage.

It is very necessary for this Department to have a new car for 1940 to use in connection with the Moth Department, the cost to each Department being about \$250.00

I recommend an appropriation of \$3,000.00 for labor and supplies for 1940.

Respectfully submitted,

ABBOTT A. RAYMOND,
Tree Warden.

REPORT OF THE TOWN FOREST COMMITTEE

To the Honorable Board of Selectmen:

Gentlemen:

Although this was the driest year we have had since the Town Forest was planted in 1924, the trees made a rapid growth. Several cords of wood were turned over to the Welfare Department, which made some saving to the Town.

The fire lines have been ploughed out and considerable weeding has been done. It is our intention to nearly finish our planting this year if our appropriation permits, and also give the Town Forest its usual care.

We recommend an appropriation of \$1,000.00 for the year 1940.

Respectfully submitted,

ABBOTT A. RAYMOND, Chairman
ARTHUR W. WESTON,
F. C. THOMAS,

Town Forest Committee.

REPORT OF THE TOWN ENGINEER

To the Honorable Board of Selectmen:

Gentlemen:

The Engineering Department activities for 1939 have been primarily concerned with surveys and plans for proposed W. P. A. projects and the necessary field work of establishing lines and grades for the various jobs under construction.

INTERCEPTING SEWER

Probably the most important project started by the Town during 1939 was the intercepting sewer which the Town proposes to lay from the north sewer outlet at the Plymouth Cordage Co. to the sewer outlet at Lumber Lane.

Before this work could be started it was necessary to have an easement plan for the use of the Town Counsel in preparing the required releases from property owners whose land would be crossed by the proposed sewer line; and in addition, a careful checking of original levels was essential. This was all done before the project started, on September 6th., and since that time grades have been furnished each time that pipe has been laid.

In addition to the work of this intercepting sewer, lines and grades have been furnished and record plans made for 4,732' of sewer on Nook Road, South Street, and Braley Lane, 327' in a way south from Alden St., and 100' on Coles Lane at Jordan Hospital.

CLAM GRANTS

Clam grants have been surveyed, staked out and recorded on the following flats:

Big Wine, Beytes, Ichabod's, Corey flats and Saquish shore.

Lines and grades were given for the construction of 19,730' of curbing, and this Department was called upon several times for grades as the Nook Road Playground grading proceeded.

Several revisions have been made in the plans of the proposed Herring run along Town Brook and, on Dec. 23, 1939, a representative of the State Department of Conservation gave his approval to the plans, suggesting only one minor change which has been made.

Record plans of main sewers laid and house connections installed, as well as street layout plans, have been made and are on file in the office of the Town Engineer.

Respectfully submitted,

ARTHUR E. BLACKMER,

Town Engineer

REPORT OF THE PLANNING BOARD

The Planning Board organized for 1939-40 with Allen D. Russell as Chairman and Arthur E. Blackmer as Secretary.

Until November the work of the Planning Board was in such scattered fields that there is little to report. The Board took up at various times the questions of parking, westerly routes, harbor improvements, fish ways and so forth but after carrying the subjects to the point where finances were necessary, work had to halt since the appropriation made for our work was not sufficient to go any further.

At one meeting we were joined by members of the Selectmen, Park Commission and Garden Club to discuss a possible development on the landward end of Plymouth Beach based on the assumption that use might be made of the dredgings from harbor improvements.

The Planning Board was requested by the Selectmen to give their opinion of various filling station locations. Such requests were replied to at once and no official filling station locations were given without the approval of the Planning Board.

We deeply regret to report the death of one of our members, Mr. Charles Giovanetti. The vacancy so caused was filled at a joint meeting of the Selectmen and Planning Board by the appointment of Mr. Amedeo Sgarzi. We welcome him to the Board.

Some time was given during the year to the question of street layouts on the property of Neil McIntosh and also to the question of sewage disposal.

Since November the Board has been meeting at least once a week on the average, sometimes in the office of the Town Engineer and at other times with the Garden Club,

the Hospital Club, the Plymouth Civic Association, the Plymouth Civic Association Auxiliary, with individuals and with state officials. The Board has on its books dates with other organizations including the Guild, The Women's Club, the Teachers' Club, and an interested group in Manomet. The purpose of these meetings has been to see if a Zoning Map and Ordinance can not be drawn up which will give good protection to property values in the Town, guide its future growth along the best lines and yet not be too onerous on any owner.

Credit for bringing the matter again before the public must be given to the Garden Club which has always shown a keen interest in town affairs and an appreciation of the town's possibilities.

Respectfully submitted,

ALLEN D. RUSSELL,

Chairman.

REPORT OF BOARD OF RETIREMENT

February 23, 1940.

To the Citizens of the Town of Plymouth :

The Board of Retirement submits herewith its report for the year ending December 31, 1939.

The Retirement System has now been in effect for two and one-half years.

An election was held in June, in accordance with the amended law, and Russell P. Dearborn who was serving as an appointed member of the Board, was elected by ballot for term of three years from July, 1938.

There is only one application for retirement now before the Board and, as none of the members will attain the age of seventy years during 1940, it does not look as though the pension load would be further increased.

Very few of the Veterans have joined the System.

The amount which the Town is directed by the Division of Insurance to appropriate for 1940 is \$13,437.00, plus \$206.70 for interest deficiency and \$200.00 for the Expense Fund.

The annual audit by the Division of Insurance was made during the summer.

ANNUAL REPORT
OF THE
Town Accountant
OF THE
Town of Plymouth

For the Year Ending December 31,

1939

TWENTY-EIGHTH ANNUAL REPORT OF THE TOWN ACCOUNTANT

For the Year Ending December 31, 1939.

Plymouth, Mass., February 14, 1940.

To The Board of Selectmen,

Town of Plymouth:

Gentlemen:

I submit herewith my report of the financial transactions of the Town of Plymouth for the year ending December 31, 1939, in the customary form. The schedules are made up as follows:

Schedule A. Cash Receipts and Payments, as reported to the Division of Accounts, of the Commonwealth.

Schedule B. Departmental and all special appropriations, including W. P. A. projects, with all payments classified.

Schedule C. Estimated Receipts, other than from taxes, as used by the Assessors in making the 1939 tax rate. Also showing the actual cash receipts from like sources.

Schedule D. Revenue Account for 1939.

Schedule E. Excess and Deficiency Account and list of all unexpended appropriation balances closed into it at end of year.

Schedule F. Balance Sheet, January 1, 1940.

Schedule G. }
Schedule H. } Bonded Indebtedness.

Schedule I. List of Trust Funds, *not including* the January, 1940, dividends.

Schedule J. Calculation of the Borrowing Capacity.

No unpaid bills were reported by any department. Only two accounts were overdrawn at the end of the year. One, the small amount of \$87.50, being the over-run of snow removal expenses during the last two days of December; the other \$468.55 on the Federal Furnace Road (Chap. 90) was covered by requisitions on the State and County both of which have now been paid over to the Town.

The Excess and Deficiency Account has been greatly depleted by appropriations made at the annual town meeting and two subsequent special meetings. The remaining credit balance of \$62,712.06 is none too large, considering the improbability of additions to it during the coming year.

The Bonded Debt Schedule contains but four items. One of these is a final payment, and another, the Manomet Water Loan, will be closed out in 1941. In comparison with this, the January 1, 1919, schedule, which was the first which I made, as Town Accountant, contained twenty-two items, as follows:

- 2 Fire Department Loans
- 1 Sewer Loan
- 5 Highway Loans
- 6 School Loans
- 8 Water Loans

The bonded debt is very low; only about one per cent of the 1939 valuation. The Town still will not be out of debt for more than ten years, although the interest requirements show an annual reduction.

Respectfully submitted,

ELMER R. HARLOW,

Town Accountant.

SCHOOL DEPARTMENT OFFICE HOURS

Office open from 8:00 a. m. to 12:00 m., and 1:00 to 4:30 p. m. every school day. Saturdays: 9:00 a. m. to 12:00 m. It would be advisable to make special appointments with the superintendent.

Vacations and summer schedul: 9:00 a. m. to 12:00 m. and 1:00 to 4:00 p. m. Saturdays: 9:00 a. m. to 12:00 m.

SCHOOL CALENDAR 1940

Winter Term—Tuesday, January 2—Friday, April 12.

Recess: February 19-23.

Spring Term—Monday, April 22—Friday, June 21.

Holiday: Thursday, May 30.

Fall Term—Wednesday, September 4—Friday, Dec. 20.

Holidays:

Friday, October 25— Teachers' Convention.

Monday, November 11—Armistice Day.

Wednesday-Friday, November 27-29—Thanksgiving.

NO SCHOOL SIGNALS

2-2 on Fire Alarm Code

7.05—No school for Junior and Senior High Schools.

8.15—No *morning* session for Grades 1 to VI inclusive.

11.15—One session for Grades I to VI inclusive, schools closing at 12.30.

12.30—No afternoon session for Grades I to VI inclusive.

The radio station WEEI will broadcast the no school signal at or just after 7.00 a.m. and again at about 7.40 a.m.

REPORT OF SCHOOL COMMITTEE

At the adjourned town meeting on April 13 an unexpected reduction of \$22,950 was voted, which necessitated radical reductions in salaries and in the reorganization of the system as explained in the report of the superintendent of schools. The reductions in salaries and elimination of nine teachers were in no sense a reflection upon the efficiency of those involved but due to the necessity of keeping within the budget. The consolidation of schools was deemed undesirable from many points of view. The effects, however, will be carefully studied during the ensuing year.

The major expenses for maintenance during the year were as follows: heating repairs \$967.15 (including two new sections in the boiler at the Hedge School), plumbing \$410.76 (including replacement of water pipe filled with scale at Cornish School), painting and calsomining \$1,328, building repairs \$1,165.21 (including \$865 for repointing of east wall of the high school building).

The east wall of the new High School building had developed some bad leaks due apparently to failure to follow specifications in full. According to the terms of the original contract with the D'Amore Construction Company who constructed the building, the town has a legal claim against the company for the money expended for repairs due to defective workmanship. There is also a bond against water coming into the building from any exterior surface. One-half the cost of repointing the east wall was paid in December. Funds for the other half were retained until the work has proven satisfactory.

The committee feel it for the best interests of the town to encourage adult education, Boy Scouts, Girl Scouts, the Philharmonic Orchestra or other musical organizations which contribute to the general betterment of the town and the W. P. A. recreational groups in their use of the

gymnasium. While these activities add to the cost of heat and light, the increase is small in comparison with the benefits derived.

ANNUAL REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee:

I herewith submit my fourteenth annual report as Superintendent of Plymouth Schools.

The past year has been the most difficult to administer for many years, due to the radical reduction in the budget voted at the annual town meeting. Drastic reductions made in March are exceedingly serious because plans for the school year are determined in the previous September and carry through June. The teachers have been elected at stated salaries and the general organization of classes and grades fixed. No radical change can be effected until the September following the town meeting and thus for only a third of the calendar year. Faced with the necessity of making a reduction of \$22,950 in the budget, the following steps were taken to meet the situation. The amount stated in each case is approximate.

1. *Voluntary Contributions of Salaries Made a Reduction of \$8900.*

All teachers, janitors and other departmental employees receiving over \$1000 offered a voluntary contribution of 7½ per cent effective May 1. Teachers with legal contracts through the school year as well as those on tenure made this voluntary contribution which was accepted by the school Committee. The salaries of the superintendent, principal of the Senior High School, assistant principal, and building supervisor were reduced from \$200 to \$400 in addition, effective September 1. Auto allowances for the special supervisors and superintendent were drastically cut or eliminated entirely, although similar allowances were continued in full in other town departments.

2. *Consolidation of Schools in September Reduced Costs \$3965.*

a. The consolidation of the Hedge and Knapp schools eliminated the cost of two teachers, a janitor, heat and light, amounting to \$2,075. The sub-primary training and special class were discontinued.

b. The closing of the Oak Street School and the transfer of its pupils to the Cornish and Burton schools eliminated two teachers, a part-time janitor, heat and light, amounting to \$740.

3. *Changes in Special Fields and at the Junior High School Reduced Costs \$2,200.*

Four teachers were dropped owing to

1—Smaller pupil enrollment in grade seven.

2—Return from the six-hour school day with supervised study to the five-hour day with less supervised study and more home work.

3—Sewing in the sixth grade was dropped as well as the program of supervision of physical education in all the elementary grades; hence, no program for correction of physical defects through carefully planned exercises.

4—The instruction in instrumental and vocal music was radically reduced and the special teacher dropped.

4. *Cost of Supplies was Reduced \$2,675 as follows:*

1—Laundering of gym towels \$475.

2—Athletic supplies \$500.

3—Text books and supplies \$1,700.

5. *Summer School was not opened, saving \$400*

6. *Changes in personnel reduced costs \$1,800.*

The several teachers and principals who resigned were replaced at lower salaries. In promoting the vice principal to the principalship of the high school, the former position was discontinued.

7. *Salary increments.*

A decrease in automatic salary increments and in the use of substitute teachers made a reduction of about \$700.

8. *Transportation.*

Transportation of special teachers and pupils was decreased \$575, while less pupils at Bourne and Duxbury made a reduction in tuition of \$450.

9. *W. P. A.*

Upon the death of Miss Helen R. Burgess, who had supervised the W. P. A. Nutrition Project, the entire cost of the management and operation was taken over by the W. P. A. authorities, saving \$360.

10. *Decreases in Rent.*

Decrease in the rent of Memorial Hall and Americanization and other minor items amounted to \$800.

Effects of the Above Changes

1. The closing of the Knapp School necessitated the discontinuance of the sub-primary and special class which were doing very effective work, the one in preparing pupils for grade one and the other in providing more individual help for seriously retarded pupils. The lack of the sub-primary training will be a serious loss, the effects of which will not be felt until next year and will require detailed study.

2. The transfer of the Oak Street School pupils to the Cornish and Burton increased the size of several of the grades to numbers varying from 42 to 45. Such large numbers seriously effect the efficiency of these grades as no teacher can give proper individual attention to the needs of so many pupils. Should these large classes prevail next September, the condition should be remedied.

3. The transfer of the Wellingsley School pupils to the Mount Pleasant School produced no unduly large classes as all affected by the change were less than forty. There is, however, a very serious question of the safety of the small children who must walk longer distances from the vicinity of Jabez Corner. Citizens will need to weigh the additional cost of operation of the school as against the safety of the children.

4. No program of correction of physical defects in the elementary grades through a program of appropriate physical exercises, can be carried out except by a properly trained physical director. The restoration of this work should be given very careful consideration in the immediate future.

5. A part of the loss in the field of instrumental music will be restored by using a competent instructor on a part time basis. Further restoration of the program in music should soon follow.

6. The guidance program in the Junior High School which had been so effectively initiated was discontinued. This work of pupil adjustment was very valuable.

7. The effect of the elimination of sewing in Grade VI will be felt in the Junior High School next September.

8. The admission of the underage pupils was discontinued for the school year beginning in September. This reduced the size of the first grade by about twenty-five pupils. For many of those admitted by the special test, the earlier admission is of real value.

9. For several years the cost of text books and supplies has been kept at a minimum. There is a real need for more modern text books and for additional supplementary material in the libraries. The laundering of gymnasium towels at town expense is the most sanitary method of handling this situation. It imposes no expense on any family. The reduction in the cost of athletic supplies, including balls, bats, nets, etc. for the entire physical educa-

tion program is temporary. At no time has town money been spent for uniforms.

10. Discontinuing the summer school prevented about 100 pupils from receiving additional help for six weeks, tending to increase the retardation in the grades. It is hoped that this school will be reopened next summer.

Conclusion

Some of these changes will probably be permanent; some others will await more prosperous times; but some affecting materially and radically the welfare of the children must be carefully studied and remedied as completely and as rapidly as the town can allow.

Salary Schedule

The largest cost in any school budget is the amount paid in salaries. A reasonable salary schedule should meet three essential conditions briefly stated as follows:

1. A salary schedule must be high enough in its initial stages to encourage men and women of fine character and ability to prepare thoroughly for the responsibilities of a teacher. Teachers for elementary and junior high schools are now expected to complete four years at a state teachers college instead of two years as formerly. Teachers for high schools and some junior high schools have not only prepared in special fields for four years, but many have taken an additional year in professional preparation. This latter frequently includes educational psychology, methods of teaching and supervised practice teaching. This preparation is very valuable and is the basis for the most efficient work. When professional preparation accompanies outstanding character and constructive leadership, the quality of the work in schools is materially raised. The initial salary schedule must be sufficient to attract such persons.

2. The maximum salary schedule must be high enough to retain the most efficient and to encourage further pro-

fessional study. Stability of a teaching force well trained and progressive, assures the continuance of high standards of work. A salary schedule much below the average may attract the well trained inexperienced but will not retain them in a system. The salary schedule in Plymouth has been slightly less than average as shown by the following facts secured from a recent survey:

(1)—Of 43 of the larger towns in Massachusetts, 23 paid teachers in elementary schools more, 9 the same and 9 less.

(2)—In 36 Junior High Schools, 18 paid more, 3 the same and 15 less.

(3)—In 42 Senior High Schools, 19 paid more, 14 the same and 9 less.

(4)—In the principalships and superintendency the salary is less than the average of these 42 towns.

3. A fair salary schedule must be constantly maintained. A fluctuation leads to uncertainty and uneasiness of mind, factors tending to drive the best qualified and most experienced into other school systems. Plymouth cannot afford to impair the morale of the teaching force or lose its outstanding teachers. The very efficiency of the system is at stake, for a school system depends primarily upon the teacher's faithful discharge of her every-day duties.

Changes in Teacher Personnel

During the winter two teachers resigned. Miss Charlotte C. Brown, who had given excellent service as Dean of Girls and Head of the History Department for several years, accepted a position as Dean of Girls at Grove City College in Pennsylvania. Miss Amy M. Rafter was promoted to the position as Head of the History Department and Mrs. Miriam A. Raymond to that of Dean of Girls. Mr. Mario J. Romano was transferred to the Senior

High School and Mr. Carleton F. Rose elected to the Junior High School faculty. Mr. Rose, a graduate of the four year course at Bridgewater State Teachers College, had been very successful in his teaching at Pepperell.

Mr. Coburn W. Tripp, Principal of the Hedge and Mount Pleasant schools, resigned to accept a principalship in Belmont. Mr. Tripp had made a splendid reputation as an able, progressive leader in elementary education. Miss Susan M. Quinn was appointed as acting principal at the Hedge School for the remainder of the school year. When the Knapp and Hedge Schools were consolidated in September, Mr. William I. Whitney, Principal of the Knapp School for many years, was transferred to the Hedge School. Mrs. Helen S. Manchester, who had been Assistant Principal at the Mount Pleasant School, was made acting principal until June and then Principal for the year beginning in September.

As a further result of the consolidation of the Hedge and Knapp schools, Miss Dorice A. Knowles resigned as teacher of the sub-primary group, due to its elimination. Miss Alice Lema was transferred to the Junior High School. As a result of the closing of the Oak Street School, Mrs. Mildred R. Randall who had given excellent service for fifteen years resigned, and Miss Esther M. Ward was transferred to the Mount Pleasant School as building assistant. The closing of the Wellingsley School brought about the transfer of Mrs. Helen G. McCarthy to the first grade at the Mount Pleasant School in place of Miss Bernice D. Ludden, who was fortunate to secure a fine position in Belmont.

Due to the reorganization in the special fields and Junior High School, four teaching positions were eliminated. Miss Lemira C. Smith, Miss Alice Heywood, Miss Eleanor C. McCormick and Miss Ruth L. Hanna were not re-engaged although their work had been very satisfactory. One of these teachers was replaced by a teacher from the grades. The reduction in instruction in instrumental and chorus or glee club necessitated by the reduced bud-

get, did not permit the retention of Mr. Austin Cramer, who had done outstanding work in these fields.

Miss Virginia Dowling who had secured excellent results in art in the Junior-Senior High School for the past nine years, resigned to accept a similar position in Melrose. She was succeeded by Mrs. Margaret E. Brown, a graduate of the Sack School of Design, who had unusually fine preparation and much experience in conducting art classes locally.

Mr. Wayne M. Shipman, Principal of the Senior High School for the past twelve years, resigned to accept a similar position in Belmont. His fine character and Christian idealism won for him a high place in the affection of his pupils, their parents and citizens in general. His broad professional study and keen interest in education were real assets in maintaining high standards of accomplishment and made him an outstanding leader in secondary education. He was succeeded by Mr. Edgar J. Mongan, who had been assistant principal in charge of the ninth grade for several years and later had the same position in the combined Junior and Senior High Schools. Mr. Mongan was familiar with our local school system and with the faculty, and adjusted himself to his new responsibilities very quickly. With added professional study pertaining to the problems of secondary education he will undoubtedly become an able leader in this field of education.

Miss Louise B. Humphrey, who taught English in the Senior High School for several years with fine success, resigned to be married. She was succeeded by Miss Dorris Moore who graduated from Colby College with an A. B. degree and from Boston University School of Education with a M. E. degree. Miss Moore had four years of very successful experience in Maine and Vermont.

The science classes in the Senior High School were larger than usual. An additional teacher was necessary to relieve this situation and to take classes formerly taught

by the assistant principal who was promoted to the principalship. Mr. Carlo T. Guidoboni, who graduated from Tufts College with a B. S. degree and from Boston University with a Master's Degree, was elected to this position.

In December Mr. J. Leo Ash, Principal of the Individual School for the past two years, resigned to accept a business position. Mr. Ash had shown a very sympathetic understanding of the special problems of the boys in this school. He will be succeeded by Mr. Loring R. C. Mugford, a graduate of Boston University holding the degree of Master of Education. For the past three years he has taught a special class of boys in Duxbury.

In December Miss E. Doris Carey, Head of the French Department, submitted her resignation effective in January. Miss Carey had made an outstanding record not only in preparing pupils for college but also in her interest in the welfare of the school as a whole. She will be succeeded by Miss Jeannette C. Jacques who has taught French and English in the High School for four years and is especially well prepared for French. Miss Iris E. Albertini will be transferred from the Junior High School to take up Miss Jacques' work. Miss Albertini will be replaced by Mrs. Marjorie D. Viets, who graduated from Leland Stanford University with honors and who had two and a half years of teaching experience before her marriage. Her work as substitute on many occasions had demonstrated her worth to the system.

Renovation of Toilets at Cornish School

For several years the toilet conditions at the Cornish School have been growing worse due to the constant corroding of the iron bowls. There have never been sufficient light and ventilation. Hence, with considerable expenditure for new toilets in their present location would not make conditions as sanitary as required by new building regulations. It is, therefore, desirable to change the loca-

tion in the basement so that adequate space, well-ventilated and open to the sunlight, may be provided. The additional cost of re-location will be fully warranted by the improved sanitation.

W. P. A. Nutrition Project

At the beginning of the school year the W. P. A. Nutrition Project was continued under the direction of Miss Helen R. Burgess, a trained dietitian. This project provided hot lunches for about one hundred forty-eight undernourished pupils at the Cornish, Hedge and Mount Pleasant schools. Upon the death of Miss Burgess in February, the entire cost of supervision was taken over by the W. P. A. authorities, thus relieving the School Department of one half the cost of the supervisor's salary and other minor costs. The children who receive this benefit are recommended by the school nurse and based upon the physical condition of the children from under-privileged families.

Tuition Pupils

Last spring the Carver School Committee requested the privilege of sending pupils to the upper four grades at Plymouth. A three-year agreement was finally entered upon, under which Carver agreed to send all pupils from their eighth grade to our ninth grade and to give those pupils who had attended Middleboro High School the choice of continuing there or of entering Plymouth High School. As a result, twenty-nine pupils entered the Junior-Senior High School in September. Another year a larger number will be enrolled. Plympton sent nineteen pupils.

These tuition pupils are a definite financial asset as the increased cost due to their admission is comparatively small. The number of teachers is not affected. The only cost is for the supplies and text books used. The net income from this source for the past year was \$3,119.19. For the

year 1940 it will be about \$5,000 and an increasing amount for 1941.

Thrift in the Schools

In January the Students Activity Society in the Senior High School organized a plan of weekly savings for high school pupils in cooperation with the Plymouth Five Cents Savings Bank and the Plymouth Savings Bank. Under this system each depositor has his own bank book in which bank deposits may be made weekly at the schools. These sums are collected by bank officials and carefully checked. In February the Junior High School adopted the plan and in October the elementary schools did likewise. On December 30, the banks reported deposits as follows:

Senior High School	264 depositors with	\$1,689.77
Junior High School	372 depositors with	2,124.56
Elementary Grades	914 depositors with	1,723.28
Total	1,550 depositors with	5,537.61

The actual deposits were larger as the withdrawals amounted to about \$1,600 due largely to the seniors who left in June and who undoubtedly used much of their savings for graduation.

Results in Standard Tests

For several years standard achievement tests have been given in the elementary grades and in the Junior High School. As reported on previous occasions the results indicated work at or above June standards although the tests were given in May. Last May Plymouth schools together with those of several other towns or cities scattered throughout the United States, were chosen by the World Book Company, one of the outstanding publishers of school tests, for a special trial experimentation of a revised standard test.

These tests in arithmetic, reading, word meaning and spelling were corrected, the results tabulated, and com-

parisons made by the authorities sponsoring them. It is, therefore, from this unbiased source that the following two analyses of the results come.

“On the whole, it would appear that arithmetic is being taught in Plymouth rather more effectively than is true in the entire group of cities included in this experimentation since Plymouth seems to be above the norm at every grade level.”

“I have examined the results somewhat more closely with a view to comparing them with the norms which were derived from our total experimental population. The results of these tests indicate that the Plymouth pupils are, in general, decidedly above average in all the subjects tested and at most grade levels.”

The general excellence of the schools is frequently attested to by the records of our Junior High School pupils going to other institutions and of our Senior High School students at the best of the colleges.

Today's Need in Education

The greatest need that confronts the schools of Plymouth is an adequate educational program which will meet the varied interests and abilities of all the youth. Pupils under sixteen are now rarely permitted to leave school as formerly, while industry seldom considers anyone under eighteen. There is today a dirth of skilled mechanics in many trades, due largely to the lack of the old apprenticeship. The largest percent of unemployment lies between the ages of eighteen and twenty-four. It is, therefore, only natural that the largest number of criminals should be in the age group nineteen to twenty-one. Had broad programs of diversified vocational training been in operation, many now loitering upon the streets would be at work in positions for which they had training. Every individual has within him a specific interest and ability, which, if properly developed will fit him for a useful place in

society; undeveloped he becomes a menace to society. It is the responsibility of the school to develop this program which will bring out the latent abilities. It would definitely reduce both crime and unemployment.

Moreover, society must be interested in how its citizens use their leisure hours, which are increasing as the hours of labor are shortened. Music, both instrumental and vocal, plays an important part in the lives of many, either in appreciation of concerts or in participation in musical activities. A strong program of intra-mural games develops interests and skills which are valuable not only in themselves but contribute through life to a worthy use of leisure time. Art work develops both appreciation of the beautiful and interests which carry through life. The encouragement of these phases of education will counteract many of the evils of the present day which tend to undermine society.

A well-rounded program must also consider the full development of the physical, moral and spiritual natures of all. The development of a sound body involves the correction of physical defects and the inculcation of right habits of living. The moral and spiritual character must be developed in part through instruction and in part by the daily inspiration of teachers consecrated to their work.

It is not enough to fit youth for vocations, to provide a program for leisure hours and to develop their physical, moral and spiritual natures. Each individual must realize that he is a member of society with duties or responsibilities as well as rights in our American democracy. Pupils must be given opportunities to assume duties as citizens in the schools similar to those to be met later in life so that they will understand fully what American democracy really means and its advantages over all other forms of government.

This entire program must be carried on not only until each individual has secured a place in the world of work,

but until he has been properly adjusted into this world so that he may become in reality a self-supporting, intelligent, cooperative citizen, conscious of the need of a healthy body and mind and imbued with the highest ideals of service to mankind. Youth must be given this opportunity.

In these critical times education must be strengthened not weakened. Classes must be smaller not larger to give more time for the teacher to understand each individual as a separate human being with his own peculiar abilities and interests and possible handicaps to be overcome. The program of educational offerings must be broader not narrower to give equality of educational opportunity for all youth. The teacher of the finest character, training and scholarship must not only be secured but encouraged in every possible way by parents and citizens to give unstintingly of her strength of body and mind to the great task of educating our youth.

Cooperation

In the school report for the year 1857 is the following quotation, "The school is a tri-concern; a concern in which there are three parties; the teacher, the pupils and the parents, each having their own just rights as well as obligations. The true philosophy of high school excellence is to have all these rights and duties so acknowledged, harmonized and performed, each and all concurring, the one with the other, as that the three parties shall be in all practical efforts and influences, a perfect unity."

Schools today need more than ever the whole-hearted cooperation not only of these three groups, but I would add a fourth group, the citizens who have no children in school. This latter group must realize that the maintenance of a high degree of efficiency in the schools is a real bulwark for democracy. Money wisely spent will produce results which not only benefit the individual pupil but society itself. Economies which affect the educational op-

portunities or which undermine the morale of any system are unwise.

Again I quote from the above report: "The law of retrenchment may under certain financial exigencies seem imperative in its demands, but we trust, that in its application to the schools, there will be exercised much circumspection."

Constructive suggestions for the improvement of the schools from parents and citizens will be welcomed at all times.

Yours respectfully,

ANSON B. HANDY,
Superintendent of Schools.

SENIOR HIGH SCHOOL

Edgar J. Mongan, Principal

With a change in administration in the high school it seems well to restate the basic philosophy of secondary education. Not that any great change has taken place in this, nor for that matter has any important modification been noted. However, a repetition of these ideas and ideals at this time may serve to throw a stronger light on the service the school renders to the community and the services which it may yet render.

Education, despite advances in methods, materials, resources, remains fundamentally what it has always been: a cooperative effort on the part of pupil and teacher to develop intelligence and character; to build a well-rounded, self-possessed personality; to make a useful citizen, at home in the world in which he lives. The great traditional tools of education have been the languages, history, mathematics and the natural sciences. These the pupil has been taught with a view to giving him such proficiency in the use of the tools that he might turn them to work on himself and by their aid shape his own character. At this point real education begins, and here real teachers center their greatest attention, giving the pupil more information within the subject field, demonstrating use of subject material as it applies to real life situations, urging and encouraging the pupil to make use of his knowledge and skill. But not all pupils can use these tools with the same degree of skill any more than all men can with equal facility use the delicate tools of a surgeon. Long ago this was recognized by educators and long ago they introduced new tools, new subjects, to meet this need. But all this took place when our school population was much more homogeneous in character than it is at present.

Then not long after the World War, came a great influx of pupils and our high schools grew and grew not merely

in size but in complexity. Segments of our population which never before came to high school began to appear in large numbers and the educational problem they created, being different in character from those heretofore dealt with, demanded different tools. To give point to the above statements let me note that in 1922 our four-year high-school had 357 pupils. Today the same four grades enroll 729 children.

But the subject offering remains much the same; and as a consequence, many of our boys and girls find themselves in the position of one trying to master the use of a surgeon's scalpel when all their aptitudes point to the carpenter's saw or the seamstress's needle as the appropriate tools. (This is speaking figuratively, of course.) Deprived of these tools, and meeting continued frustration and defeat, children lose interest in education and abandon all but the most perfunctory efforts to develop themselves. It is difficult to blame them; one cannot use a dentist's drill on a block of granite and do anything but ruin the tool.

Lest what has been said above be misunderstood let me state it another way. The subject matter fields, whether history, mathematics, or what-not, offer raw material for thinking. Some pupils have mental machines not capable of dealing effectively with this kind of raw material; but, give them raw thought material in the guise of sheet-metal work, or the functioning of an automobile, or hairdressing, or home-management, and they call on all their resources and *think*. The result may not startle the world by its brilliance, but it will be the result of thought and not of parroting. Learning will become a creative and not an imitative process.

It is a common-place thing in our town to point to men who without benefit of formal schooling have become leaders in the community. They are recognized as able men; intelligent, with a broad fund of knowledge, and what is generally termed a *practical* grasp of affairs. They are not spoken of as educated men, and yet they are edu-

cated in the truest sense. They have learned to think through the medium of their trade or business or profession, and can bring to bear all their mental and spiritual resources on whatever problem living may confront them with. To say they are not educated because they lack high school or university training is just as foolish as to say that a college graduate is not educated because he doesn't know plumbing or bricklaying. The point is: Can either one of them *think*?

And the point of the foregoing paragraph: if those men learned to think in the world of work, then it might be worth while to find out if children in school can't learn to think when offered the same kind of raw material—particularly when the traditional kinds have failed to stimulate any thought-response.

What has been said here must not be interpreted as meaning that the present high school curricula should be abandoned. It does mean that they should be expanded. All the good books and wise men say that the aim of secondary education is to provide each child in high school with an education which fits his needs and his abilities.

Which poses a problem for us: how far can the town go in providing such education for children of high school age? The answer: how far can a good father go in making sacrifices himself and imposing sacrifices on his family in order to fit the members of that family for the responsibilities of life? There is no hard and fast answer. So many factors enter into the problem, and these factors change so rapidly or to such a degree in importance that the problem must remain always a problem, always in need of solution. We can, however, accept as fundamental that education is not an expense but an investment. Let me repeat: education is an investment. And investments are made with an eye to the future and as a protection against the exigencies of life.

So much for the philosophy by which the high school functions. As for its faculty which puts this philosophy into practice, one indication of its spirit is reflected in the

fact that at present eight of its members are pursuing graduate study in order that they may become better teachers. As for its graduates, whether in college, or at home, or at work, seldom do we hear of failures except such as are the common lot of all of us, failures which are faced with fortitudes and overcome by courage; and often are we inspired by the distinctions and honors which these graduates have won by their diligence and intelligence and sound character—and, we hope, to some extent at least because of their training. As for the student body, let any citizen of the town observe them at work, stand before them when they assemble in their auditorium, mingle with them as they go about their affairs, and he must conclude that as far as human material is concerned, the future of this town can be faced hopefully. The training of these children is our present responsibility. A real education must be provided for them.

Last June the high school graduated sixty-one boys and ninety girls. Of these, one boy is in preparatory school; eight girls and five boys have entered college; one boy and four girls are in business schools; seven girls and eight boys are doing postgraduate work in high school, some with a view to entering college next year.

There are at present 132 members in the senior class, 163 juniors and 218 sophomores. The total enrollment as of December 22, including postgraduates is 523.

Mrs. Miriam A. Raymond, Head of the English Department, has been appointed Dean of Girls and is in charge of their guidance. Mr. John W. Packard, Head of the Science Department, has taken over responsibility for guidance of the boys below the senior class.

A Placement Bureau, recently established and under the direction of Mr. Charles I. Bagnall, faculty manager and member of the history department, has already proved its usefulness. It has found employment for approximately ten per cent of the people who have registered, and temporary employment for many others. All

employers are urged to make use of the facilities of this bureau for its possibilities for service are great; all former members of the school seeking employment, are urged to register at the office in the High School.

In October a course in Highway Safety was inaugurated with the cooperation of the National Safety Council and the State Department of Education. About 142 pupils are enrolled in this course which is given as a unit in Problems of Democracy under Mr. Garland and as a unit in General Chemistry under Mr. Packard. Those who pass the examinations at the end of the course are exempted by the Registry of Motor Vehicles from the oral examination when they apply for a driver's license.

The imminent departure of Miss E. Doris Carey, who resigned in December, to a position in her home town, Lowell, while a great source of satisfaction to us in that outstanding merit has been recognized and rewarded, is also a very severe blow in that we lose an able teacher and loyal friend of the school.

To give expression to the feelings of the faculty and student body on Mr. Shipman's resignation as principal of this school is not possible. The personal esteem and affection in which he was held by all who came under his influence is a constant reminder that the greatest rewards for service lie not in material things.

JUNIOR HIGH SCHOOL

Mary M. Dolan, Principal

One aim of the junior high school is to develop work habits and responsibility. Rooms are open after school to give those who need more time a chance to complete assignments or to get help if the lesson is not completely understood. A well-developed system is in operation to keep absentees from falling behind. Throughout the entire school, individual differences in capacities are recognized and class work conducted accordingly.

This year the shortening of the school day has made the return to one short home lesson each night necessary in the seventh and eighth grades. This is distinctly advantageous to the pupil as it accustoms him gradually to independent outside work which is a vital part of the program from the ninth grade on.

The guidance program which was progressing satisfactorily last year has been abandoned because of the decrease in the number of teachers. Since guidance work is essential in any well-developed junior high school, it is hoped that its discontinuance here is temporary.

The extra-curricular activities (so-called) are scheduled from one until two. This has worked out very well because pupils who participate in the various groups are not called from classes and the groups themselves have not decreased in membership; in fact, greater interest has been shown in the band, orchestra and crafts clubs. There is at present a very strong demand for the revival of the drum major corps.

The inclusion of shop mathematics and drafting in the general curriculum for the ninth grade boys has, with their shop work, resulted in a very well-rounded course of study. Much interesting metal work has been done by the seventh grade boys.

The bicycle club, organized a few years ago, has attracted the attention of Chief Dearborn of the Police Department and the Plymouth Woman's Club. Through the combined efforts of these groups the bicyclist, the driver, and the pedestrian should become safety-conscious. The Plymouth Fire Department, too, has worked with the school in promoting safety. All bus drivers exert great care in transporting children safely, conveniently, and efficiently. Mr. Thurber, manager of the Plymouth and Brockton Street Railway Company, gives the problem constant personal supervision. The Safety Patrol has sponsored assemblies and developed valuable home room programs.

Several interesting programs are scheduled for the last half of the year, two outstanding ones being the Band Concert in March, and the Flag Day Exercises on the Training Green. The band, orchestra, and glee clubs are prepared to participate in civic programs at any time.

Through careful management the same low prices have been maintained in the cafeteria although food costs have advanced.

Two seniors from the State Teachers College at Bridgewater were trained this year in the English and Social Studies department. Their work was very satisfactory.

In all departments everything possible is being done for the welfare of the child. We are fortunate indeed to have a corps of teachers alert to their needs.

EXTRACTS FROM OTHER REPORTS

Elementary Schools

Education today has for a general purpose to develop the whole child, not merely his brain. School is no longer a place where children primarily acquire factual knowledge or merely prepare for a future way of living. It should be a place where boys and girls actually live; getting practice in cooperative self-government and an opportunity to apply knowledge to difficulties and problems as they arise. We feel that we should prepare children to do independent thinking based upon the knowledge and experience of others.

Let us briefly examine the objectives which we wish children to attain by the end of the sixth grade. Pupils should be able to read with understanding any material within the experience level of the pre-adolescent child. They should use with accuracy and understanding the fundamental operations in numbers, express ideas correctly, forcibly, and in an interesting manner through written language, line and color, bodily rhythm, music, and handicraft. They should be able to interpret many phrases of every day life through the application of historical, geographical, and scientific concepts, understandings, and facts.

That the essential abilities are being developed in Plymouth Schools is shown by the results of Standard Tests in English, arithmetic, spelling, and reading. Plymouth pupils rate higher in achievement in these subjects than average pupils at similar grade levels. We attribute this to careful analysis of individual difficulties and effort to overcome these weaknesses through remedial classes.

It is not possible to acquire any real ability without acquiring basic skills. For this reason we recognize the need of periods of drill in our modern teaching procedure.

Through the teaching of geography, history, citizenship, and the social subjects the school is attempting to instill in children those attitudes and understandings which are conducive to living together. If we are to live in a democratic country, where the welfare of all depends upon the attitude of every individual, the school must instill in the children these understandings. We can judge the results of our work as worth the great amount of time, money, and effort expended, only when we have helped produce a generation of people whose attitudes are better than they would have been without the influence of the school.

The objective of all education is to help the individual to help himself to grow aright. He gains ability to grow through experience, activity and interest. He learns to do by doing. There can be no growth apart from self activity. To be alive means to carry on by selecting and rejecting. The whole business of education consists of giving the child's native ability and interest normal opportunity to organize themselves into the kind of life he needs to lead.

The schoolroom of today should contain an atmosphere of happiness, cooperation between pupils, and between teacher and pupils. There should be a spirit of courtesy for each and all. Eagerness and enthusiasm should be there, and an appreciation of a task well done.

Pottery Vocational School.

The Plymouth Pottery Vocational School now in its fifth year shows an increased interest among pupils with the total accommodation reached at times so that a waiting list has been made necessary. Registrations have been taken from Middleboro, Wollaston, Carver, Marion, Osterville, Sandwich, Egypt, Providence, Brockton, Boston, Plymouth and Kingston. The last as usual, is in the lead.

Demonstrations were made by the Plymouth Potters' Guild at the Springfield Fair for the third year and exhibitions have been given in Kingston, Hanson, Framingham, New York and Boston. A radio talk was also broad-

cast by a Guild member under the auspices of the County Extension Service.

Customers have come to the shop from nearly every state in the union and business shows an increased sales total for the year. The salary is paid by the state from the George Deen funds.

Music

Due to the loss of a teacher in the music department, the following arrangement has been made to accomplish as much work as is possible with a reduced teaching staff:

Mr. Pacheco—

Junior High School band

Senior High School band

Miss Hunt—

Supervision of all class work in grades 1—6

Glee clubs in two elementary schools: Hedge and
Cornish-Burton schools

Seventh and eighth grade classes in Junior High,
Seventh, eighth, and ninth grade choruses

Combined seventh and eighth grade glee club and
ninth grade glee club

Senior High School boys' and girls' glee clubs and
same clubs combined

Senior High School orchestra

Junior High School orchestra

Instruction in the brass and woodwind instruments is being carried on by Mr. John Pacheco in both the elementary schools and Junior High School, while the violin instruction is being handled by Mr. Joseph Querze. Piano class work continues under Miss Susan Bowditch. This group instruction is carried on with no expense to the town.

The sectional rehearsals for bands and orchestras, which were found so helpful last year in developing im-

proved ensemble work in all these organizations, have had to be discontinued. The extremely popular drum major corps likewise was dropped because of lack of time in the teaching schedule.

Regular classroom work has continued to emphasize improved singing and music-reading ability, the core of any music program, that pupils may develop greater independence, and use this improved ability to allow greater participation and deeper musical enjoyment.

Extra-classroom groups (orchestras, bands, glee clubs) are using all opportunities to cooperate with other school groups and with town groups to make their music an active, useful element in their lives.

High school glee clubs have combined with townspeople so far this year in the Thanksgiving celebration and in the Christmas eve pageant in Town Square. Christmas carol broadcasts called upon the services of senior high, junior high, and elementary school groups to share their Yuletide music with others. The bands and orchestras are constantly being used in assemblies, parades, dedications and the like. It is hoped that all these cooperative musical events will serve to arouse an increased townwide interest in music that will produce worthwhile returns in musical achievement. Such is the ultimate aim of all the work of the music department.

By far the most ambitious enterprise of the year was the American Folk Festival held on Saturday afternoon, June 3, at the state reservation at Plymouth Rock. This festival was participated in by 1500 local school children from grade one through Senior High School, and in addition, enlisted the services of many adult townspeople. Five hundred other school children from the towns of : Auburn, Bourne, Framingham, Holbrook, Monson, Northampton, Sagamore, Watertown, and Weymouth in this state, and from Keene, N. H. testified to the widespread interest in the folk festival idea. Colorful costumes, spirited dances, and dramatic settings all combined to make the event

successful musically, aesthetically, and from the standpoint of value to the town. Such a festival offers an unsurpassed opportunity for hundreds in the town to work together through a common love of music.

Drawing

The work done in the art department of the Junior and Senior High Schools beginning in September has been as follows:

The first problem of the year in both seventh and eighth grades consisted of making a portfolio for each pupil's drawings. Here lessons in color, design, lettering, and the making of a useful article were taught. The next work was to finish a Christmas gift, so in both grades the students painted small round trays in different colors, using their own original designs. Some carving of colored wax plaques was also done.

The special project for the year is the production of a shadow puppet play which depicts the boyhood of Johann Sebastian Bach, the great composer. This work requires the study of figure drawing, perspective, color harmony, stage settings, lettering and poster design. The music department is correlating with the art department in giving this performance which will be ready for production in the spring.

Much the same plan has been followed in the ninth grade in a more advanced way. As drawing is elective in this grade the class is small and more individual work can be done. Beside this regular work, posters, and decorations for school activities have been made by pupils in all three grades of the Junior High School.

Craft classes have been carried on in the ninth grade only, until January first. Now groups are being formed in the seventh and eighth grades also. Decorative painting, metal and leatherwork have been the principle fields in which they have worked.

Two ninth grade classes in home decoration follow the course of study as suggested by the State Division of Vocational Education. Two consecutive periods are used for this course in which they learn the art principles which will develop the desire for creating an artistic, well arranged and happy home and yet planned according to the family living standards and in keeping with the family income.

The High School work has been as follows:

A problem in modern design in black and white, painting flowers in water color and crayon, drawing parts of the body from casts and sketching from life, drawing and painting from still life. They designed Christmas cards with illuminated lettering, painted and decorated large wooden bowls and various types of trays for Christmas gifts. They are completing at the present time posters and fliers for the school play. Work is progressing on illustrations and designs for the annual school paper "The Pilgrim" and designs for the covers of the annual school reports.

The teacher and pupils have carried out all requests for school affairs, such as posters and decorations for dances and assemblies. Posters were made for one community affair, the Jordan Hospital Club Thanksgiving Ball.

Craft classes are also conducted in the Senior High School. More advanced problems along the same lines as in the Junior High School were given the students as they seemed particularly interested in those crafts.

The work done in the art department of the elementary grades has been as follows:

At a meeting of the Eastern Arts Association in the Pennsylvania Hotel in New York, a superintendent of schools began his address to hundreds of art teachers thus: "A minister begins his sermon with a text, I am beginning my talk to you with one sentence: "The justification of an art department in any city is that it helps the

boys and girls of that city do better the things they are going to do anyway."

The Plymouth Art Department has taken that statement as the keynote of its work, and with that thought in mind it is correlating art work with all subjects. To bring added interest to the work and give a unifying purpose to the same, this correlation is being carried on through the medium of varied types of puppet performances. The methods of work were chosen with the following beliefs in mind:

1. Children learn best to do by doing, not merely talking.
2. The most lasting knowledge is gained by experience plus evaluation.
3. That knowledge obtained to meet a need is more permanent than knowledge just learned as a lesson to be recited.
4. That what we get out of a lesson is proportionate to what we put into it.
5. That he who solves a problem by himself does not readily forget the solution.
6. That in order to gain power to make right decisions, one must be given many opportunities to make decisions.

Those knowledges, attitudes and habits of work which are necessary to the development of art ability are contained in this program which includes: (1) making of original designs, (2) drawing of the human figure, flowers, birds and animals, (3) drawing of interior and exterior scenery, (4) painting with water colors and poster paints, (5) stenciling, (6) clay modeling, (7) poster design, (8) lettering, (9) study of costume and furniture of different countries, (10) laws of color harmony, unity and rhythm.

The value of puppet performances is being recognized by more and more educators and social workers. Dr. Gren-

fell in Labrador, the state of Mississippi, Seattle, Los Angeles, Indianapolis, Pittsburgh, Newark, the school systems of Newton and Haverhill are examples. The resultant attitude of zest in solving problems with the knowledge thus gained will prove the value of this program.

Physical Education

A. Junior-Senior High School Boys

The aims of the physical education department are as follows: to promote and improve health, to teach better physical coordination, to teach sportsmanship and cooperation and to make for better citizens through an appreciation of a sound mind in a sound body. Our work is divided into three parts, as follows:

1. Classwork

The classwork for the boys includes individual and group activities. At the beginning of each year every boy takes the Physical Fitness Index test. This test is given to show what the individual needs most in the line of activity. If the boy has a lower score than the average for his age and weight he is given special attention until he is able to build up his physical fitness to the average score for his particular classification. This work is done in special groups. Included in the regular classwork are marching, calisthenics, tumbling, some apparatus work, games instruction, games participation, posture work, first aid and life saving instruction, pyramid building and stunts.

Posture work must of necessity be handled individually. This is done and corrective work is also done in the same manner. By working with the pupil and also with the parents, much good is accomplished.

The school physician checks on the health of all boys before the opening of the sport season in which they participate.

2. Intra-mural Sports

Because of the limited space the intra-mural sports during the fall term are limited to touch football leagues for the grades in the Junior High School.

During the winter term basketball, volley-ball, and ice hockey leagues are run. This present winter finds twenty-seven teams in three intra-mural basketball leagues. Each team has at least seven men on it. There are five ice hockey teams operating in a league. The hockey teams play on the various ponds and bogs around town and when it is available, they are given permission to use the Paty Rink. The Paty Rink was constructed by the Ocean Spray Hockey Team and they have been more than kind to allow us to use it.

There are four teams in the volley-ball league. These games are played at the school gymnasium.

The spring sports for the intra-mural leaguers are tennis, golf, horseshoes and baseball. The Plymouth Country Club allows the boys the use of the Bay Nine at certain times and we run our matches there. The other sports are run on the town courts at Stephens Field and South Street.

3. Varsity Sports

The varsity sports are football in the fall, basketball in the winter, and baseball during the spring. During the past fall we had about sixty boys competing in football. The squads in basketball and baseball number about twenty-five.

This year for the first time Athletic Insurance was available in Massachusetts. This insurance is handled by the New England Headmasters' Association and is a non-profit organization. The cost of the insurance is one dollar per year. Most of our football squad members took advantage of this insurance.

B. Junior-Senior High School Girls

Nearly every normal young person is interested to some extent in some form of physical recreation or play. Phys-

ical education in the schools has the responsibility of providing opportunities for girls to spend part of their leisure time in physical recreations and also of helping each girl to develop skills in recreational activities that can be carried over and used during leisure time in adult life. The program is largely natural in type, with play which involves natural bodily movements and the big muscles; a large variety of activities with each type of activity making a general and specific contribution to the girl. Emphasis is placed on the instructional, intra-mural and play day programs rather than interschool contests. Records of P. F. I., skill tests, participation in class work and showers, achievements in various phases of the program are kept that the program may be adapted to the needs, capacities and interests of each girl.

The Junior High School program provides for the participation in a wide variety of activities, a period for the exploration and trying out of interests in physical education. The program includes group games, team games, the skills of team games, self-testing activities, stunts and contests, dancing and individual sports. In the Senior' High emphasis is placed on the stimulation of interest and development of skills in highly organized team games: hockey, basketball, soft ball. Instruction in the fine points of strategy and skill in games are emphasized, and good sportsmanship stressed. Interest in individual sports is maintained through the badminton, shuffleboard, tennis and bowling tournaments and in the Red Cross swimming classes during the summer months.

Americanization

It is the earnest belief of those who have a most intimate knowledge of the aliens in our land that it is the hope and wish of the vast majority of them to fit themselves to become worthy citizens of our democracy. This cannot be done suddenly, for of course, before they can be made to understand anything of our laws and customs by which our country is governed they must understand and learn

the language of the country. They must understand that a duty they owe to themselves is to learn English.

Many have lived here for years, handicapped by inability to speak English, yet have been useful and industrious members of our communities. These are now more than ever qualifying and becoming naturalized citizens. This means great effort on their part and usually at the end of a hard day's work.

“American citizenship is a glorious privilege. Some have it by right of birth; others have it by right of adoption; but whether by birth or adoption it means the same to all—freedom of action under law and equality of opportunity.”

REPORT OF HEALTH DEPARTMENT

L. B. Hayden, M. D., School Physician

Hilda R. Swett, R. N., School Nurse

All work of the medical department is based on the following fundamental aims: to provide a healthful environment as far as is possible in the school and at home, to promote an interest in healthful living not for the sake of health alone, but because of what health will make possible in the lives of the children, to give each child a fair chance to attain maximum health through the detection and removal or through the prevention of physical handicaps and diseases, to encourage the formation of proper health habits and to assist the parents in securing medical treatment. Some of these aims are realized through the annual physical examination which is given to each child. Others are realized by visits to the homes which results in better understanding and cooperation between the home and the school. Others are attained by the regular health work carried on by the classroom teacher.

The school has a natural interest in the correction of defects which interfere with the normal school progress of the child. We have found it necessary in many cases to provide transportation to various out of town hospitals and clinics for children requiring medical attention. This procedure is carried out only at the request of their family physician. In this way fifty-two children have received medical attention this year. Defects that received attention were poor vision, impaired hearing, enlarged tonsils and adenoids, curvature of the spine and other bone conditions.

The toxoid treatment for the prevention of diphtheria was given to all first grade children whose parents gave their consent. Parents realize the value of this treatment which has now been carried on in the Plymouth schools

for twelve years and are having it done earlier by their family doctor.

The tuberculin testing for the detection of early tuberculosis was carried on in the Senior High School. By this procedure early cases of tuberculosis are not only discovered but in many cases by means of careful supervision sanatorium treatment may be avoided. Therefore, every student is urged to take the test.

Fifteen children were sent to the Bailey Health Camp at South Hanson last summer. All of these children were positive reactors to the tuberculin test, a number of them coming from homes in which some member of the family had had tuberculosis.

We wish to extend our sincere appreciation to all those citizens and organizations who have helped us to carry on our work.

Statistics for 1939

Number of inspections	1027
Number of examinations	2273
Number of notices sent to parents	212
Number of pupils admitted by school physician	720
Number of pupils admitted by other physicians	291
Number of pupils referred to physicians	114
Number of pupils referred to school nurse	213
Number of pupils excluded by school physician	104
Number of pupils excluded by school nurse	197
Number of pupils inspected in schools	901
Number of pupils inspected in homes	285
Number of pupils treated in school	327
Number of home visits	392
Number of school visits	496
Number operated for tonsils and adenoids	5
Number weighed and measured	6720
Number taken to hospital and clinics out of town ..	52
Number of contagious diseases found in school	140
Number of contagious diseases found in homes	23

REPORT OF ORAL HYGIENE DEPARTMENT AND DENTAL CLINIC

Jane B. Bradford, Dental Hygienist

The program of the Plymouth School Dental Clinic is based on years of practical experience. It is recognized throughout the state and is considered outstanding. Due to this fact, every year we have visitors from other towns and cities that are interested in starting programs in their communities, and wish to gain from our experiences.

The aim of our dental health program in the public school system is preventive and corrective. The instruction given in the school by the dental hygienist is directed towards the prevention of mouth disease, and the work done in the clinic by the school dentists is the corrective part of the program. As a result we try to have the greatest possible number of children with healthy mouths, with no dental defects, or diseased gums. To obtain this we build dental health on three desirable objectives:

1. A balanced diet and good wholesome foods are of great importance in their relation to building strong teeth and healthy gums.
2. Value of regular visits to the family dentist. These should be made at least twice a year. Small cavities can be filled before they become painful. Thus toothaches can be avoided. This is an economic saving.
3. Daily brushing for cleanliness and appearance. Teeth should be brushed properly after meals and at bedtime.

It is the policy of our clinic to do corrective work for the first and second grade children, the parents of whom cannot afford to send them to a dentist. This naturally leaves many others that are financially unable to have proper dental care. Thus, it is necessary for the school dentists to give a great deal of free service to the children

in their own offices as emergency cases are frequently arising and cannot be cared for at the clinic. This service is very valuable as it is impossible for a child to do satisfactory work in school unless he has good health. Each year in examining, the dentists find that there are fewer children with large cavities. This is an indication that they are becoming more "tooth conscious."

We are very fortunate in having the cooperation of the schools, the homes and the dentists in our community. Without this we would be unable to obtain such good results for our statistical report which follows.

Number of examinations in the fall (grades 1-9) ..	1695
Number of 100% mouths at time of examination by school dentists	224
Number of pupils with dental certificates from family dentist before examination — 100% mouths	38
Number of pupils having dental work done by family dentist at time of examination	13
Number of oral hygiene talks in schools	375
Number of home visits	1
Number of pre-school examinations	9
Number of pupils having a dental prophylaxis (cleaning of teeth)	885
Permanent teeth filled (six-year molars)	214
Permanent teeth extracted	5
Temporary teeth extracted (baby teeth)	206
Treatments (including 8 Trench Mouth)	37
Number of pupils having some work done	30
Number of completed cases	90
Money received for dental prophylaxis	\$82.20
Money received for sale of tooth brushes	\$30.55
Money received for filling and extractions	\$28.80
Total amount of money received at the clinic	\$141.55
